Subject: Re: Request for Extension of Time Received for Permit 96-9521

Dear Ms Block,

Thank you for clarifying my extension request options.

I would like to modify my extension request from a 5 year to a 4 year extension at this time. This would then give me the opportunity to file one more extension request after that for 5 years.

Please allow this email to be used as my written request to modify my previously mailed in form.

Thank you for your prompt attention to this matter.

Sincerely,

Gerald E. Smith

Dear Mr. Smith:

The Department is in receipt of your request for extension of time to submit proof of beneficial use for the above mentioned water right permit. I noticed that you have asked for 5 years on this extension request.

According to Section 42-204, Idaho Code, you are allowed an initial development period of 5 years and only one extension request after that for up to 5 more years.

You were given a 1 year development period under the permit. If you were to change your extension request from a 5 year extension to a 4 year extension request, you would be meeting the initial 5 year development period allowed. This would give you the opportunity to file one more extension request for up to 5 more years later as mentioned above.

However, in order for me to modify your request for extension of time form from a 5 year extension request to a 4 year extension request, I need written request from you stating that you would like to have your extension request form modified to reflect a 4 year extension in lieu of the 5 years currently requested on the form.

A reply to this email could be used as your written request to modify your form. Please respond as soon as possible, **and be as specific as you can in your request.**

Sincerely,

Darla Block
