RE: Additional Information Request for Permit 85-15760

Dear Mr. or Mrs. Boyle:

On June 19, 2014, you filed an application for permit to appropriate water for irrigation, stockwater and a domestic use in the SENE ¼¼ of Section 32, Township 33 North, Range 3 West. The application was approved and water right permit 85-15760 was issued on August 14, 2014. On September 12, 2014, you filed a proof of beneficial use statement claiming that you developed the irrigation of 2 acres, stockwater and domestic use under water right permit 85-15760.

I am now trying to verify the water use under 85-15760, and license this water right permit. I have attached a copy of the permit and a map of your property. I will need the following items if available:

1. We will need verification of the Horsepower of the well pump. You can generally find this information on the pump panel or the last person to work on the well would probably have this information. The Application states that it is 1.5 Hp.
2. We will need you to mark on the enclosed map the location of the 2 acres of irrigation that is listed on this permit.

You can request that IDWR personnel go into the field to collect this information accompanied by yourself or your representative. For this to occur, please contact me within 30 days. If you would like your representative to be present, please have the name, telephone number, and email of your representative. Be aware that you and the representative must be available to be contacted for scheduling of the required visit before November 14, 2014.

Please provide the requested information (via mail, email or fax) by November 14, 2014. If I do not receive the requested information or have not been contacted by November 14, 2014, I will take action to void your permit under the provision of Section 42-219(8) of the Idaho Code.

Respectfully,

Clay Webster

Water Resources Agent
