Subject: SRBA Decree Questions - 63-311 & 63-2168 Bermensolo

Carter,

Nick has found a couple of issues with SRBA Decreed Rights. He is confusing old local names vs. USGS labeled names, but still these rights have some issues.

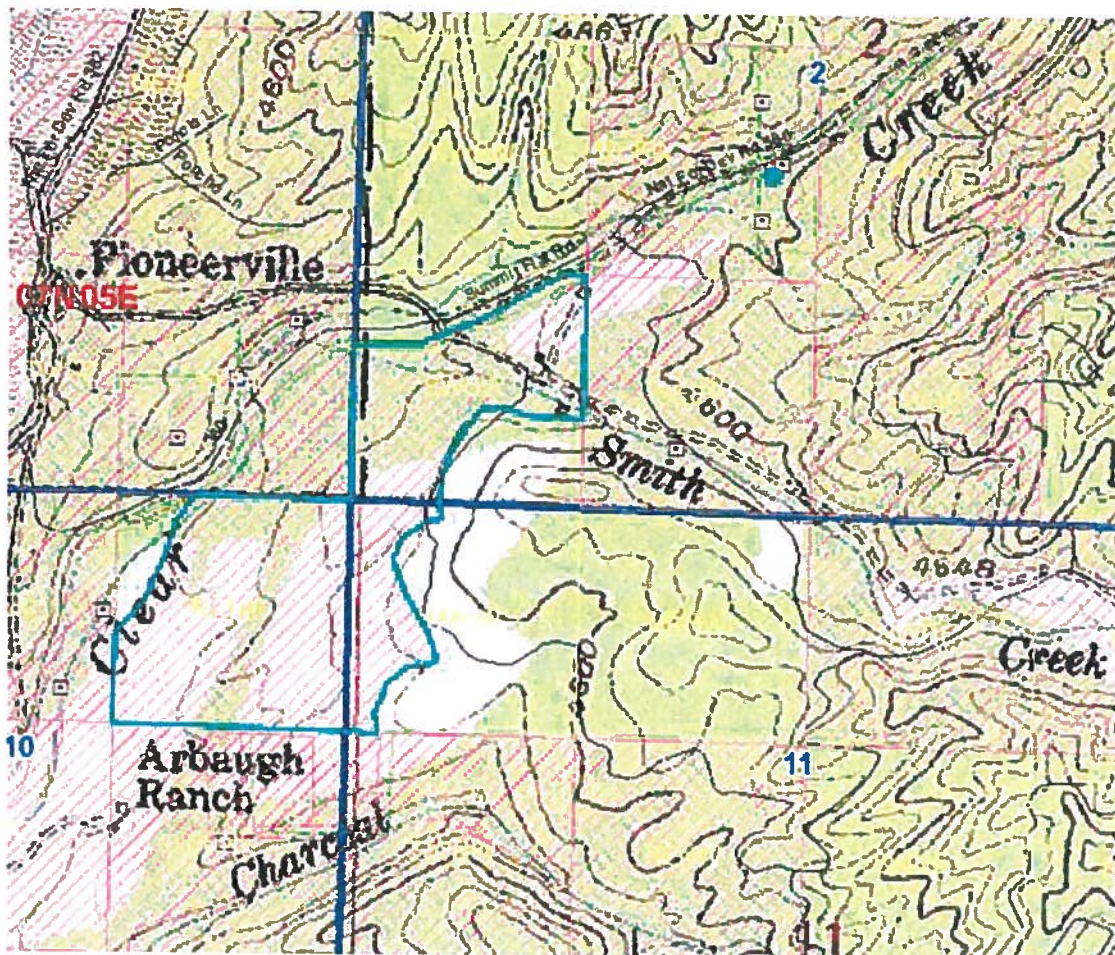

63-311 SRBA PD shows 2 PODs and Clear Creek as the source.

- **NESW** correctly shows a POD shape on Clear Creek tributary to Grimes Creek.
- **SESW** has no current shape. The described POD in the AJ Claim file is a point on **Smith Creek tributary to Clear Creek** along with 63-312A & B. Clear Creek just misses SESW. **Smith Creek is not listed a source on this PD**, but was shown on 02-20-2002 Preliminary Recommendation in claim file. The source was dropped, but not the POD? Can't add a POD shape to another source & accurately reflect the PD.

In Re SRBA	)	PARTIAL DECREE PURSUANT TO
	)	I.R.C.P. 54(D) FOR
Case No. 39576	)	
	)	Water Right 63-00311

NAME AND ADDRESS: BETTY M BERMENSOLO
1970 NORTH CANONERO WAY
BOISE, ID 83709

SOURCE:	CLEAR CREEK	TRIBUTARY: GRIMES CREEK
QUANTITY:	1.50 CFS	
	THIS RIGHT SHALL PROVIDE NO MORE THAN .02 CFS PER ACRE AT THE FIELD HEADGATE.	
PRIORITY DATE:	01/01/1894	
POINT OF DIVERSION:	T07N R05E S02	NESW Within Boise County SESW

63-2168 SRBA PD doesn't have a source listed & so there is none in the database either.
Claimed source was Clear Creek, East Fork noting in remarks that the source is aka Smith Creek.
02-26-2002 Preliminary Recommendation shows Smith Creek as the source same POD as 63-311 & notes aka Clear Creek, East Fork.
No POD OR POU shapes for this right. No source identified on PD to attach the POD shape.

In Re SRBA
Case No. 39576

PARTIAL DECREE PURSUANT TO
I.R.C.P. 54(b) FOR
Water Right 63-02168

NAME AND ADDRESS: BETTY M BERMENSOLO
1970 NORTH CAMONERO WAY
BOISE, ID 83709

QUANTITY: 0.04 CFS

THE QUANTITY OF WATER UNDER THIS RIGHT SHALL NOT EXCEED 13,000
GALLONS PER DAY.

PRIORITY DATE: 03/11/1911

POINT OF DIVERSION: TOWN ROSE SD2 SESW Within Boise County

PURPOSE AND PERIOD OF USE:	PURPOSE OF USE	PERIOD OF USE	QUANTITY
	Domestic	01-01 TO 12-31	0.04 CFS

PLACE OF USE: Domestic TOWN ROSE SD2 SESW Within Boise County

Looks like these two rights may need correction through the court. All we can do at this point is document the files to show the discrepancies for future reference.

Subject: Water Rights with wrong source code in Enterprise

Shelley and Pam,

I found two water rights that reference a water source ID that is not in the Enterprise water source table. WRs 63-311 and 63-2168 have PODs that reference water source ID 26366, but I think they should reference ID 3533 (Clear Creek, East Fork, trib to Grimes Creek). I'd have fixed them, but the rights were decreed with these errors (so the Partial Decree doesn't list the second POD for 63-311 and it doesn't list a source at all for 63-2168), so I thought I'd forward them on to you guys to correct if you feel so inclined.

Nick.
