RE: Additional Information Request for Permit 95-16814

Dear Ms. McElroy:

On July 28, 2014, you filed an application for permit to appropriate water for a domestic use in Government Lot 1 in the NENE ¼¼ of Section 11, Township 49 North, Range 4 West. The application was approved and water right permit 95-16814 was issued on September 9, 2014. On October 3, 2014, you filed a proof of beneficial use statement claiming that you developed the domestic use under water right permit 95-16814.

I am now trying to verify the conditions of the permit have been met, and license this water right permit.

I will need the following information to proceed:

1. Please provide information confirming that the fish screen of ¼ inch or smaller mesh has been installed and maintained at the point of diversion within 14 days of this letter.

You can request that IDWR personnel go into the field to collect this information accompanied by a member of your staff/organization. For this to occur, please contact me with the name, telephone number, and email of your representative and the representative must be available to be contacted and for scheduling of the required visits within thirty (30) days. IDWR must also receive the contact information of your representative in a timely manner.

Respectfully,

Clay Webster
