POU Total Acres: 136.0

**Conditions of Approval:**

1. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
2. X35 Rights 63-12576 and 63-33928 when combined shall not exceed a total diversion rate of 3.46 cfs.
3. X61 The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 3/15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
4. W14 Use of this right is combined with water from Black Canyon Irrigation District.
5. WB7 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor exceed a combined annual maximum diversion volume of 612.0 af at the field headgate for the place of use.
6. 065 The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right for land with an appurtenant surface water right(s) to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
7. 104 If the surface water right(s) appurtenant to all or part of the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used on the land with an appurtenant surface water right(s) without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
8. R61 This right when combined with all other rights shall provide no more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
9. 01M After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
10. 004 This right does not grant any right-of-way or easement across the land of another.
11. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
12. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
13. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
14. This right was previously numbered 65-12057.

**Comments:**

1. sbock 11/21/2000 pou  
The 1983 field exam showed a "box" for irrigation. Since the field exam a pivot was put in prior to 1987. Acres were changed to refelect pivot, no increase in acres. Black Canyon boundary
