RE: Licensing of water permit 55-7397

Dear Mr. Johnson:

I have been assigned to complete the licensing process for water permit 55-7397. The application for permit for stockwater use was filed in August of 1989 by a Mr. Kenneth MacKenzie. Since that time, Mr. MacKenzie has sold portions of his property to your department identified within the NW¼NE¼ Section 33, Twp. 7S, Rge. 4W of Owyhee County.

On June 3, 2014, I sent a Notice of Pending Order to Void Permit letter to Mr. MacKenzie, the Dept. of Lands, and Bureau of Land Management. This letter stated that I would take action to void the permit if no party claimed use authorized by the permit. On June 18, 2014, I received a call from a Michelle Anderson in regards to my letter. She claimed that the land currently owned by the Dept. of Lands referenced above is using the water at the identified Place of Use under Permit 55-7397 and is interested completing the water right process for stockwater use.

If you believe a developed beneficial use of water under Permit 55-7397 exists, please send me supporting documentation within fourteen days. If I do not hear from you within fourteen days, I will move forward with the licensing process and exclude stockwater use within the lands described above.

If you have any questions regarding this matter, please call me at 208-287-4933.

Sincerely,

Patrick Kelly
Water Resource Agent
