
COMMUNICATION MEMORANDUM

TO: FILES 77-14319 AND 77-14331
FROM: DANIELLE FAVREAU
SUBJECT: PERSON TO CONTACT
DATE: NOVEMBER 13, 2014
CC:

While reviewing Water Permit 77-14319 for licensure, the contact information for 77-14319 was shown to be in error. Water Permit 77-14319 is held by Bear Lake Mining Co LLC. Information sent to the address on the permit in Plano Texas was returned. The phone number of record, 902-702-9992, is a disconnected number. Clark and Feeney, LLP were listed as representatives but sent a letter rescinding representation on Aug. 25, 2014.

A Statement of Completion was received on July 30, 2014 indicating a mailing address of 29 Barnett Ln. Bozeman, MT 59715. On Sept. 26, 2014, I attempted to reach the contacts on the Statement of Completion by email. No response was received.

I then attempted to reach the contacts on the Statement of Completion by telephone. The number 406-582-4981 was for Gradient Engineering. The staff person at this number indicated that Trey Riddle was affiliated with Bear Lake Mining Co LLC. I left several messages for Mr. Riddle at 406-582-4981.

My last attempt at contact was on October 14, 2014.

Mr. Riddle returned my call and left a message on November 13, 2014. I was able to reach him shortly after he left his message.

During our conversation, Mr. Riddle confirmed to me that he is the contact person for Bear Lake Mining Company regarding permits 77-14319 and 77-14331. His current phone number is 406-580-2578 and his current address is 29 Barnett Ln. Bozeman, MT 59715. Mr. Riddle mentioned that he is moving office locations before January 2015. I pointed him to the Change of Address form on our website (http://www.idwr.idaho.gov/RulesStatutesForms/WaterRights/PDFs/CHANGE_IN_ADDRESS.pdf). Mr. Riddle said that he would submit the change of address form to IDWR when he has moved offices.
