

MEMORANDUM

Date: September 26, 2014
To: Water Right File 51-7154
From: cpalmer
Re: Corrected Acres

The database indicated that this right is worth 138 acres due to a data entry complication. This right was decreed for a limit of 69 acres. I corrected the database (the water use tab indicated 69 acres under irrigation storage and irrigation-the system added the acreage fields to get 138).
