

MEMORANDUM

Date: September 26, 2014
To: Water Right File 51-12809
From: cpalmer
Re: CORRECTED ACRES

The database indicated that this right is worth 70 acres due to a data entry complication. This right was decreed for a limit of 35 acres. I corrected the database (the water use tab indicated 35 acres under irrigation storage and irrigation-the system added the acreage fields to get 70).
