

MEMORANDUM

DATE: November 10, 2014
TO: Permit File No. 63-32562
FROM: Darla Block
RE: **Phone Conversation with Permit Holder about Proof Deficiency Letter**

On November 10, 2014, I received a call from Doug Merges (permit holder) regarding the proof deficiency letter I sent him dated November 6, 2014. Item no.5 of the proof form was incomplete. In addition to that, Mr. Merges marked item no. 7 of the proof form as if there is no measuring device and lockable device requirement listed on this permit, but there is.

Mr. Merges has been informed that if he wishes to protest the measuring and lockable device requirement he must contact the watermaster of Water District No. 63 (Rex Barrie) about his need for this requirement. If he agrees that the requirement is unnecessary, request that he/she provide the Department with written agreement that the requirement can be waived at this time. Upon receipt of your request and his acknowledgement the Department will issue an order waiving the requirement at this time.

Mr. Merges asked that I give him until December 19th, 2014, to resubmit the completed proof form along with something from watermaster Rex Barrie regarding permit condition nos. 6 and 8. I agreed, and informed Mr. Merges that I would put his water right permit file on call-up until December 19th, 2014. The permit proof of beneficial use due date is September 01, 2015. Mr. Merges has paid the \$100.00 license examination fee based on the maximum diversion rate on this permit of 1.00 cfs.
