Subject: Amended application for transfer 79136

Hi Roxanne,

Just following up and wondering when the amended application for transfer (79136) will be submitted?

Thanks,
Blake

Thank you for your quick work in getting the Circle Pi amended transfer application reviewed and advertised! I sincerely hope this is the last time we look at this set of water rights!

Have a good weekend.

Subject: Application for transfer Circle PI LLC

Hi Roxanne,

I have completed my initial review of the Circle PI LLC transfer and found a couple of things that need to be brought to your attention.

I found a different rate of diversion for the total amount of water proposed to be transferred or changed. Using the spreadsheet that you provided I calculate 0.324 cfs instead of 0.34 cfs.

Under Part 1B 3 Points of diversion there is a statement in bold letters that says "**See additional supplement**". I am assuming the additional supplement page that you are referring to is the point of diversion supplement page? I could not find this supplement page in your application.

We have accepted reduced application fees for water right transfers that correct legal description errors resulting from the SRBA or other clerical errors that may have occurred through other water right processes. Unfortunately this transfer does not qualify for a reduced application fee. The filing fee for this transfer is \$500.00. You already paid \$200.00. We need an additional \$300.00.

Let me know if you have any questions

Thanks, Blake
