Re: Notice of Change in Water Right Ownership No: 63-31892

Original: Water Right No. 63-31892

Split Into: Water Right No. **63-33923**

Dear Water Right Holders:

The Department has received and processed a Change of Ownership for a portion of the original Water Right as referenced above. This Change of Ownership required a split of the original water right. Referenced above is a new number that has been created to represent your portion of the water right. A proof report for **63-33923** is enclosed.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Your portion of this water right has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form or you can find the forms at www.idwr.idaho.gov. If you do not plan on changing any items on your water right, then no further action is required at this time.

Thank you for your patience, as we have had several water right changes to process. Please contact this office at 334-2190 if you have any questions concerning the enclosed information or this letter.

Sincerely,

Rachel Sommer

Dear Water Right Holders:

The Department has received and processed a Change of Ownership for your original Water Rights as referenced above. This change of ownership resulted in a split of one of your original water rights.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use.
