Original: Water Right No. 63-10228
Not Split: **X**

Dear Water Right Holder:

The Department has received and processed a Change of Ownership for your original Water Rights as referenced above. This change of ownership resulted in a split of one of your original water rights.

When a portion of the original water right has been conveyed to another and the original right has been split, then the original water right number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new water right number reflects your remaining portion of the original water right, after the change of ownership. Enclosed is a copy of this new water right for your records. Please refer to your new water right number when corresponding with our office.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Thank you for your patience, as we have had several water right changes to process. If you have any questions concerning this ownership change, or the enclosed information, please feel free to contact this office at 334-2190.

Sincerely,

Rachel Sommer
