

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

**MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER**

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from an Department office or on the Department's website at <http://www.idwr.idaho.gov/>.

Name of Applicant(s) Trail Creek Sprinkler Irrigation Company

Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.

Yes N/A *Means the item is always required and must be included with the application.

- ✓ * Completed Application for Transfer of Water Right form, Part 1.
- ✓ * Signature of Applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ✓ * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- ✓ ☐ Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application.
- ✓ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ✓ * Correct fee submitted with transfer application form. (Fee schedule is on website and instructions for application for transfer).

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-9

- ☐ ✓ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder (see Part 1.)
- ☐ ✓ #2a Water Right ownership documentation if Dept. records do not show the transfer applicant as the current water right owner. Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ✓ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s).**
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ✓ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ✓ ☐ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ✓ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at <http://www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm>
- ☐ ✓ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer (See Part 1.5.c)
- ✓ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A).
- ✓ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use.
- ☐ ✓ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B). Additional fee required for proposed changes to nature of use; see fee schedule.
- ☐ ✓ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ✓ ☐ #9 Other. Please describe: Applicant's water rights; Sample accounting spreadsheet.

RECEIVED

AUG 25 2014

Department of Water Resources
Eastern Region

APPLICATION FOR TRANSFER OF WATER RIGHT PART 1

Name of Applicant(s) Trail Creek Sprinkler Irrigation Company Phone: (208) 787-2776

Mailing Address: PO Box 131, Victor, ID 83455 Email: _____

- ☐ If applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign or act on behalf of the applicant. Label it **Attachment #1**.
- ☐ Attach water right ownership documentation if Department records do not show the transfer applicant as the current water right owner. Label it **Attachment #2a**.
- ☐ If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). Label it **Attachment #2b**.
- ☐ Attach documentation of authority to make the proposed change if the applicant is not the water right owner. Label it **Attachment #3**.

Provide contact information below if a consultant, attorney, or any other person is representing the applicant in this transfer process.

- ☐ No Representative

Name of representative Robert L. Harris Phone: (208) 523-0620

Mailing Address: P.O. Box 50130, Idaho Falls, ID 83405 Email: rharris@holdenlegal.com

- ☐ Send all correspondence for this application to the representative and not the applicant.

OR

- ☒ Send original correspondence to the applicant and copies to the representative.

- ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant.

OR

- ☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation providing authority to sign for the applicant and label it **Attachment #4**.

I hereby assert that no one will be injured by the proposed changes and that the proposed changes do not constitute an enlargement in use of the original right(s). The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☐ Add diversion point(s) ☐ Change Place of use
☐ Change nature of use ☐ Change period of use ☒ Other: Add nature of use
2. Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.2. See attached Part 1A.2.**

PART 1A.2

The purpose of this transfer is to enable shareholders of the Trail Creek Sprinkler Irrigation Company to use water allocated to them pursuant to their shares to be used for storage purposes associated with aesthetic/recreational ponds. It is believed that all of the current ponds on the system (approved by water bank rentals) would qualify as "24-hour" irrigation ponds which would not require a transfer. However, the company believes it will be better to file the transfer to formally authorize the ponds in the event the 24-hour irrigation pond policy changes in the future.

It is proposed that the transfer be approved with the following conditions, or similar conditions prepared by the Department, to ensure that recreational storage does not result in a net increase in depletion of the water supply:

1. The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.
2. Place of use is within the area served by Trail Creek Sprinkler Irrigation Company.
3. Water is delivered through Trail Creek Sprinkler Irrigation Company.
4. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.
5. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
6. Use of water for filling ponds under this water right shall not occur prior to May 15 in any year except as authorized by the Water District 01 Watermaster when other rights would not be injured.
7. Aesthetic Storage, Recreation Storage and Irrigation Storage uses are for a series of ponds located within the service area of the Trail Creek Sprinkler Irrigation Company.
8. Rights 22-559, 22-12981, 22-13002, and 22-13010 authorize diversion of water to be used for the initial fill or single annual refill of the ponds authorized to be developed under the water rights and for the replacement of losses caused by evaporation from the reported ponds.
9. The ponds developed under Rights 22-559, 22-12981, 22-13002, and 22-13010 may not exceed a total of 70 acres in surface area.
10. In the approval conditions of Transfer _____ pertaining to this right, the term "mitigation" refers to the change in nature of use from irrigation use to irrigation storage,

recreation storage and aesthetic storage uses under this right. Mitigation from another water right or water source is not required.

11. The right holder shall provide mitigation for every pond that cannot be filled within a 24-hour period by the amount of water available under the shares of Trail Creek Sprinkler Irrigation Company stock associated with the property on which the pond is located. Mitigation shall consist of a reduction in the number of acres irrigated under this water right. This right does not authorize more than a total of 250 acres committed for mitigation purposes in any given year.
12. To eliminate seepage losses, the right holder shall ensure that an impermeable liner is installed and maintained in all ponds that require mitigation developed under this right.
13. On or before November 15 of each year the right holder shall submit to the department a report that includes the following information about the water diverted to storage in connection with this right: 1. Pond Information for every pond receiving water under this water right including pond name, pond ID number, specific location, type, surface area in acres, capacity in acre-feet and type of lining. 2. Trail Creek Sprinkler Irrigation Company Shareholder Information including owner name, stock certificate number(s) and total shares. 3. Mitigation Requirements including the amount of water needed for the initial fill or single annual refill of each pond (identified separately) and for annual evaporation expressed in acre-feet. 4. Actual Mitigation including irrigated acres dried-up, specific location of acres dried-up, former crop on dried-up acres, mitigation volume from acres dried-up, contributions of water from other sources, total quantity of mitigation water and mitigation surplus or deficit expressed in acre-feet. 5. A geographic information system (GIS) shapefile or other map acceptable to the department depicting all reported ponds and specific acres dried-up for mitigation purposes.
14. The rights listed below are limited to the irrigation of a combined total of 6758.4 acres in a single irrigation season. Combined Right Nos.: 22-90, 22-221C, 22-221D, 22-222A, 22-222C, 22-223, 22-245C, 22-355, 22-435A, 22-435C, 22-520, 22-559, 22-12981, 22-13000, 22-13001, 22-13002, 22-13003, 22-13004, 22-13005, 22-13006, 22-13007, 22-13008, 22-13009, 22-13010, 22-13011, 22-13553. The authorized acres under all rights shall be reduced in direct proportion to the annual pond development and mitigation requirements reported under Right Nos. Rights 22-559, 22-12981, 22-13002, and 22-13010, pursuant to approved Transfer _____.
15. The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.
16. This right when combined with all other rights shall provide no more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
17. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
18. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of

water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued

B. DESCRIPTION OF RIGHTS AFTER THE REQUESTED CHANGES. IF THE RIGHTS ARE BEING SPLIT, DESCRIBE PORTIONS TO BE CHANGED AS THEY WOULD APPEAR AFTER THE REQUESTED CHANGES.

1.	<u>Right Number</u>	<u>Amount</u> (cfs/ac-ft)	<u>Nature of Use</u>	<u>Period of Use</u>	<u>Source & Tributary</u>
All or part ☒ ☐	<u>SEE ATTACHED SPREADSHEET</u>				
☐ ☐	_____	_____	_____	_____ to _____	_____
☐ ☐	_____	_____	_____	_____ to _____	_____
☐ ☐	_____	_____	_____	_____ to _____	_____
☐ ☐	_____	_____	_____	_____ to _____	_____
☐ ☐	_____	_____	_____	_____ to _____	_____
☐ ☐	_____	_____	_____	_____ to _____	_____
☐ ☐	_____	_____	_____	_____ to _____	_____
☐ ☐	_____	_____	_____	_____ to _____	_____

Total authorized under rights: _____ cfs and/or _____ ac-ft.

2. Total amount of water proposed to be transferred or changed 9.06 Cubic feet per second and/or _____ acre-feet per annum.

3. Point(s) of diversion:

☒ No changes to point(s) of diversion are proposed - the following chart is therefore not completed. (Proceed to #4.)

☐ Attach Eastern Snake Plain Aquifer analysis if this transfer proposes to change a point of diversion affecting the ESPA.
Label it **Attachment #5**.

New ?	Lot	¼	¼	¼	Sec.	Twp.	Rge.	County	Source	Local name for diversion

4. Place of use: (If irrigation, identify with number of acres irrigated per ¼ ¼ tract.)

☒ No changes to place of use are proposed - the following chart is therefore not completed. (Proceed to #5).

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

**APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued**

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future. Diversion structures consist of headgates into pipelines and canals. Headgates are lockable.

- b. Who owns the property at the point(s) of diversion? Individuals other than the applicant.
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system: The applicant and its predecessor entities/water right owners have accessed their diversions since the late 1880s and into the early 1900s and possess either written easements or have prescriptive and/or statutory rights to access the diversion system.

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? **If yes,** ☐ Attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: N/A. The boundaries of the place of use are not proposed to be transferred. Also, there are no liens on the applicant's water rights.

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation or legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer: Land now irrigated may be taken out of product to offset or mitigate the consumptive effect of ponds implemented under the rights proposed to be amended. The applicant will submit an annual report to the Department specifically identifying lands taken out of production for mitigation purposes.
- e. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) of use: See Exhibit 9 attached hereto for a list of the applicant's water rights. The water rights highlighted in yellow are those subject to this transfer.

- f. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ Undergone a period of five or more consecutive years of non-use,
☒ ☐ Currently leased to the Water Supply Bank,
☐ ☒ Currently used in a mitigation plan limiting the use of water under the right, or
☐ ☒ Currently enrolled in a Federal set-aside program limiting the use of water under the rights?

If yes, describe: The applicant is both the lessee and lessor through the water bank to allow for ponds on a temporary basis, which this transfer attempts to make permanent. The current water bank lease expires at the end of 2014.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

**APPLICATION FOR TRANSFER OF WATER RIGHT
PART 3**

A. PLAT MAP (See Part 3A of instructions for application for transfer for complete requirements.)

- ✓ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.
- ✓ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**. If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

Attachment 7b is a map of most of the current and a few planned ponds that are authorized pursuant to water bank leases. These ponds and others will be listed in the accounting of ponds under this transfer, and indeed, are the reason for the transfer. There may be a few additional acres of ponds developed over time, so the map does not show the only ponds that can be authorized.

B. CHANGES IN NATURE OF USE (Water Balance)

- ✓ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**.

1. Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required in Part 3B above.

Place(s) of use: Large POU Info

Conditions of Approval:

1. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
2. 135 The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.
3. 129 Place of use is within the area served by Trail Creek Sprinkler Irrigation Company.
4. F01 Water is delivered through Trail Creek Irrigation Company.
The rights listed below are limited to the irrigation of a combined total of 6758.4 acres in a single irrigation season. Combined Right Nos.:22-90, 22-221C, 22-221D, 22-222A, 22-222C, 22-223, 22-245C, 22-355, 22-435A, 22-435C, 22-520, 22-559, 22-12981, 22-13000, 22-13001, 22-13002, 22-13003, 22-13004, 22-13005, 22-13006, 22-13007, 22-13008, 22-13009, 22-13010, 22-13011, 22-13553
5. E56
6. P29 This right is a combination of old Right Nos.22-399 and 22-460.
