Department of Water Resources
Water Right License

WATER RIGHT NO. 75-14518

Priority: May 05, 2008

Maximum Diversion Rate: 0.04 CFS
Maximum Diversion Volume: 1.2 AF

It is hereby certified that ROBERT NEUWAY And
CARLY NEUWAY And
CHRISTY MERRITT
182 BLUE HERON
SALMON ID 83467 has complied with the terms and conditions of the
permit, issued pursuant to Application for Permit dated May 05, 2008; and has submitted Proof of
Beneficial Use on January 27, 2014. An examination confirms that water is diverted from:

SOURCE

GROUND WATER

and a water right has been established as follows:

BENEFICIAL USE

DOMESTIC

PERIOD OF USE

01/01 to 12/31

DIVERSION RATE

0.04 CFS

**ANNUAL
DIVERSION VOLUME**

1.2 AF

LOCATION OF POINT(S) OF DIVERSION:

GROUND WATER L2 (NE1/4NE1/4) Sec. 28, Twp 18N, Rge 21E, B.M. LEMHI County

PLACE OF USE: DOMESTIC

Twp	Rge	Sec	NE				NW				SW				SE				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
18N	21E	28		X															
				L 2															

CONDITIONS OF APPROVAL

1. Domestic use is for 1 home.
2. The irrigation occurring under this domestic use when combined with 75-7294B shall not exceed 1/2 acre.
3. Upon specific notification by the Department, the right holder shall install a lockable device of a type acceptable to the Department in a manner that will provide suitable control of the diversion.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 17th day of October, 2014.

RE: License No. 75-14518

Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

The approved licensing amendment is also enclosed and supersedes any previously submitted applications for amendment related to this right.

You have expressed a desire to develop an irrigation water right for the lot you own in addition to what this domestic use will allow. A partially completed Application for Permit and instructions are enclosed for your convenience. Please complete the application, sign, and submit with appropriate fee if you want another opportunity to develop the irrigation use. Note that you may request up to five (5) years to complete development of the new permit.

If you have any questions, please contact me at 208-287-4951.
Sincerely,

Pamela Skaggs
Water Rights Supervisor

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on October 21, 2014, I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER (Approved License) to the person(s) listed below:

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Dear Patrick,

There has been an important misunderstanding. We don't need water to our house and a $\frac{1}{2}$ acre. We need to water a crop of lavender on the property across the road.

We are now watering trees, we plant for a wind break. We need to retire in the near future. To do so, we need an income. Lavender is said to be a easy to grow cash crop. This is so important to our future. We are no longer young. We need to retire soon. If a mistake is made here, it could cost us our ability to have enough money to retire. My health is poor and my husband has a bad back.

Please help us get the right permit for our needs, so we can retire soon.

I'm sorry, my health has made it hard to handle this matter and my husband is no good at these kind of things.

RE: Water Right Permit No. 75-14518

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

 X **Point(s) of Diversion**

 X **Place(s) of Use**

 X **Other**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it within 14 days. A fee of \$100 has already been receipted for this application.

If you have any questions, please call me at 208-287-4933.

Sincerely,

Patrick Kelly
Water Resource Agent

MEMORANDUM

TO: Water Right File – 75-14518

FROM: Patrick Kelly – Water Resource Agent

DATE: September 30, 2014

SUBJECT: Review of Water Right File for Licensing

At the time of the field exam in June, it was difficult to determine what had actually been diverted for beneficial use. The place of use outlined in the field across from the home did not appear to have been developed. A request was made with the amendment for additional proof. The applicant had sent in a few photos of the well, a spigot, and a field where a garden hose lie.

Further information from Google satellite imagery dated June 30, 2014 shows land that I am unable to distinguish any real development or irrigation. The property was visited by Senior Water Resource Agent Sandy Theil on September 4, 2014. Photos included in the field exam report show land that has not been developed, and I am unable to establish any type of irrigated land.

The applicant has made it clear that they do indeed irrigate the land for trees and other uses. However, based on the evidence that I have gathered, I can only recommend irrigation use for the 0.4 acres of land surrounding the Neuway home.

After consulting with Shelley Keen, a recommendation has been made to change the use from irrigation to domestic use. This gives the property owner a half acre of irrigation and we may include the land owned by the Neuway's across the street in the place of use.

RE: Water Right Permit No. 75-14518

Dear Permit Holders:

On June 5, 2014, the Department of Water Resources sent you an Application for Amendment form. This form must be signed and returned to the Department accompanied with the correct fee. A fee has been submitted to the Department, however to complete the water right licensing process, the signed amendment must be returned as well. Once the Department receives this signed form, a license may be issued for water permit 75-14518.

Any prior or existing application for amendment of a permit will be voided by the submission of this completed document. If the amendment is not signed and returned by August 18, 2014 action will be taken to void the permit and authorization to divert water to the property will cease.

If you have any question please call me at 208-287-4933.

Sincerely,

Patrick Kelly
Water Resource Agent

RE: Water Right Permit No. 75-14518

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

☒ **Point(s) of Diversion**

☒ **Place(s) of Use**

☐ **Other**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it within 14 days. You will not include a fee with this form as you have already submitted the \$100 fee to the Department. Any prior or existing application for amendment of a permit will be voided by the submission of this completed document.

If you have any questions, please call me at 208-287-4933

ROBERT & CARLY NEUWAY
182 BLUE HERON DRIVE
SALMON ID 83467

April 24, 2014

Re: Water Right 75-14518

Mr. & Mrs. Neuway,

I am sending you this letter in response to our telephone conversation on April 22, 2014. I am sending you a copy of the Application for Permit that was completed, signed and submitted to IDWR. I have also included the Permit to Appropriate Water. The location of Point of Diversion and Place of Use is identified by your legal description. As you can see from the application, the applicants filled out Township 18N Range 21E Sec 21 NWSESE $\frac{1}{4}\frac{1}{4}\frac{1}{4}$. The legal description that was placed on the application and eventually permitted actually describes a property located to the north and does not include any property owned by the Neuway's. The correct legal description for the Neuway property is Township 18N Range 21E Sec 28 NENE $\frac{1}{4}\frac{1}{4}\frac{1}{4}$ LOT 2. I have included a map outlining these boundaries in the area.

There are actions the Department can take to void your permit or you as the Permit owner can relinquish use. However based on our conversation, I believe that it is in the interest of the user that you would like to move forward with the licensing process.

The user must submit an Application for Amendment of Permit to accurately describe the Place of Use and Point of Diversion. This does require a \$100 fee per § 42-221C, Idaho Code. Once the Department has received the amendment, a Water Resource Agent will conduct a field exam which will determine that beneficial use has been established. Based upon what the agent finds in this field exam, they will then recommend appropriation rates, volumes, and conditions for licensing.

In regards to the field exam, it is difficult for me to see what has actually been irrigated based on aerial photography. You may request that an agent come out to your property and completes an on-site assessment of your water system this summer. An alternative is to provide me with photos of the water system such as your well, pump, lines including areas that are being irrigated.

If you have any questions or concerns, please see my contact information below.

Sincerely,

Patrick Kelly
Water Resource Agent
