Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.

9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. The water rented under this agreement is appurtenant to irrigation of 78.6 acres; 0.2 acres irrigation under Right 35-2924 is not diverted to provide mitigation for the effects of this rental identified through ESPA modeling.

11. This rental agreement does not authorize the construction of a well.
12. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
13. Use of water under this agreement will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.

run out one way analysis. If reach depletions go up, it is a debit, if they go down, it is a credit. Sum all debits, only where mitigation is required (dark yellow), and all credits (light yellow). Mitigation is required for the full amount of the summed values if greater than zero.

Transient state analysis represents mitigation requirements for the worst or maximum time step in the model run.

Transient State Summary of Modified Stream Depletions Following Transfer(s)
Impact by Reach (AF/Trimester)

Evaluation of transient state mitigation requirement is not comprehensive across all time steps. Instead this evaluation finds the maximum stream depletion following the start of the transfer and looks at depletion amounts from that time step. In many instances this depletion is greater than the depletion associated with the steady state condition or final time step. This evaluation is merely an indicator of whether transient depletions must be considered, not an indicator of all transient impacts.

Michele,

Cherie asked me to run the model analysis for the 79.0 acre rental again. I only changed the volume coming from 35-2824 to 20.0 AFA. The modeling still indicates that no mitigation is required. Let me know if you need anything else from me for this rental.

Greg,

Thank you for your phone call yesterday. Per our conversation, I will hold off on the 79 acre Funk rental until you have re-modeled with added acres. As it is modeled now, there is only 78.6 acres available. The problem stems with water right 35-2824 which was modeled at 3.6 af/acre when it should be have been 4 af/acre. Thanks again.

Re: Review & Analysis of Lisa Funk Applications to Rent Water from the State Water Supply Bank to cover 79 acres on the Juan Irigoyen farm

PURPOSE/NARRATIVE: On March 26, 2014, Greg Sullivan of Brockway Engineering submitted an application to rent water from the State Water Supply Bank on behalf of Lisa Funk. The application proposed to rent water to irrigate 79 acres located in Twp 5S Rge 31E sec 26. The application requested water for 2014-2015.

The March 26, 2014 rental proposal could not be processed without causing enlargement. A revised water right list and revised modeling was submitted electronically on August 5, 2014. The first revision was also found to over-commit at least one water right. A second revised water right list and companion revised modeling was submitted electronically on August 28, 2014. The last revision proposes to rent water for the same 79 acres as the first application but will rent from a different combination of water rights and only for the 2014 season.

The proposed point-of-diversion is an existing well utilized by the applicant's current system. The native ground water right, 35-7618, was decreed in the SRBA to Lisa Irigoyen Funk and was used on the property with surface water from Aberdeen-Springfield Canal Co. As part of a water swap arranged in 2013, 35-7618 has been leased to the WSB. It has been rented through 2015 for use on other farm property managed by the Funk family.

The proposed place-of-use for this rental is the 79-acre, authorized place-of-use for native water right, 35-7618.

AUTHORITY TO FILE: According to available Bingham County taxlot information (from 2012), Juan Irigoyen owns the property at the proposed place-of-use. Juan Irigoyen is deceased. He was Lisa Irigoyen-Funk's father. The Funk's are in the process of getting the land ownership updated. Greg Sullivan has limited power of attorney for the Funk family's water rights issues. Mr. Sullivan signed the application on behalf of Lisa Funk.

WATER RIGHT VALIDITY:

Water Right 35-2824 (held by Kip and Brandi Hunter) is leased to the State Water Supply Bank and it is available to rent through December 31, 2015. A review of aerial photography shows that the authorized place-of-use has been irrigated. This is not unexpected because ground Water Right 35-2824 is supplemented by Aberdeen-Springfield Canal Company shares. That limitation was recognized at the time that the right was accepted into the bank and has been defined in conditions of acceptance. When used as a primary ground water right 35-2824 is valid for only 41.0 acres, 0.82 cfs and 164 AF. A portion of the right has been rented through 2015. The remaining portion is sufficient for the rental amount requested.

Water Right 35-14040 (held by KBC Farms) is leased to the State Water Supply Bank through December 31, 2014. A portion of the right has been rented through 2014. The remaining

portion is sufficient for the rental amount requested. This rental exhausts the leased amount of this right.

Water Right 35-8362 (held by H. Alan Funk) is leased to the State Water Supply Bank through 2017. A portion of the right has been rented. The remaining portion is sufficient for the rental amounts requested. A review of aerial photography shows that the water right appears to have been idled at the authorized place-of-use. This rental exhausts the leased amount of this right.

Water Right 35-2924 (held by Rhodehouse) is leased to the State Water Supply Bank through December 31, 2014. A portion of the right has been rented through 2014. The remaining portion is sufficient for the rental amounts requested. A review of aerial photography shows that the water right appears to have been idled at the authorized place-of-use. The applicant will be renting 12.8 AF but using only 12.0 AF. The 0.8 AF difference is ~0.2 ac worth of irrigation and is mitigation for reach impacts.

Water Right 35-7415 (held by DeGiulio) is newly leased to the State Water Supply Bank as of the 2014 season. A portion of the right has already been rented through 2018. The remaining portion is sufficient for the rental amounts requested. A review of 2014 satellite imagery shows that the water right does not appear to have been idled at the authorized place-of-use in April 2014. This is not unexpected because this ground water right is supplemented by Aberdeen-Springfield shares. The attorney for the right holder has confirmed that this ground water right was idled at the beginning of 2014 irrigation season.

Water Rights 36-196 and 36-15536 (held by Jentzsch) are leased to the State Water Supply Bank through 2015. A review of 2013 aerial photography shows that pivot corners are dry on the authorized place-of-use. The rights are available to be rented in the amounts requested.

The applicant arranged to have an additional portion Water Right 35-2543 (held by Aberdeen-Springfield Canal Company) be leased to the State Water Supply Bank for the 2014 season. The portion is sufficient for the rental amount requested.

As a group the rights are available for the 2014 season not for 2015 as requested.

INJURY TO OTHER WATER RIGHTS: The consultant provided ESPA modeling of this water rental package. Due to the limitations of the current modeling utility, (Modified_Etransfer_V3_1.xls), a stacked sum of three modeling runs must be used to demonstrate the impact of the water withdrawals. I reproduced the consultant's modeling. The Funks will need to rent a little more from WR 35-2924 than they will use on this 79-acre field. No additional mitigation is required.

ENLARGEMENT OF USE: No enlargement is evident through this rental package.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

Comment from WD 120 watermaster and Eastern Region will be requested. The Watermaster has been consulted and has no concerns for this rental.

The place-of-use shape for the rental is the place-of-use shape for WR 35-7618.

Michele,

I have attached the updated model analysis that you requested for the 79.0 acres rental to Lance Funk.

Here is the breakdown of the water rights to be rented.

Owner	Water Right	ACRES	Cell

Only 3.0 acres of 35-2924 will be used for irrigation. The 0.2 acres is used to offset reach impacts.

Greg

I am looking at the Lisa Funk 79-acre rental today. I think the A-S and DeGuilio leases upon which it relies are very close to being finalized.

I have attached the fee calculation spreadsheet that the WSB has been using this year with my additional calculations for each right in this rental.

I don't have all of the files in front of me. But based on the lease and the rental agreements already in place, the Alan Funk right 35-8362, would end up slightly overcommitted.

Thank you again for clarifying the rental activity that right 35-8362 is participating in this year. I had lost track of. You stated that Lisa's 79-acre rental would use 9.5 acres worth of 35-8362. My simple calculation shows that Lisa's 79-acre rental uses 10.5 acres worth. (Your August 5, 2014 modeling of the rental uses 42 af not 38 af) Which puts the total 2014 season rental requests from 35-8362 at ½ acre more than the right can provide.

Any way, we can't rent more than the right has. So do you want to trim the Lisa Funk 79-acre or the NPVR 240 acre rental?

Michele

Cherie and Michele,

I have attached the ESPA model analysis for the Lance Funk 79.0 acre rental for 2014. Due to some unforeseen issues with some previously identified water rights to rent, a new ESPA model analysis is required. There is currently a rental application for 79.0 acres submitted to the Water Supply Bank for the 2014 irrigation season. The place of use, period of use and PODs for the rental will not be changing.

The following water rights will be used to fulfil this rental.

Owner	Water Right
Hunter	35-2824
KBC Farms	35-14040
H Alan Funk	35-8362
Rhodehouse	35-2924
DE GIULIO	35-7415

ASCC	35-2543

Water right 35-824, 35-14040, 35-8362, 35-2924, 35-7415, 36-196 and 36-15536 are currently leased to the Water Supply Bank. A portion of 35-2543 is currently leased to the Water Supply Bank but is being rented by another entity. An application to lease 35.0 acres of 35-2543 will be submitted to the Water Supply Bank within the next couple of days. An agreement has been made between Aberdeen Springfield Canal Company and Lance Funk regarding the payment of the rental. The Water Supply Bank will receive the 10% portion of the processing fee and Aberdeen Springfield Canal Company will directly receive a payment from Lance Funk.

I will be in direct contact with Aberdeen Springfield to insure that the 35.0 acre lease application and the agreement is submitted to the Water Supply Bank as quickly as possible.

If you have any questions regarding the attached documents or rental, please give me a call and we can discuss it.

Thank you for all of your hard work,

Michele,

The intent of the rental is to rent 79.0 acres for two years. The attached data entry shows two years. The calculated affects are shown below with the Near Blackfoot to Neeley reach having 9.3% of Historical water and 6.0 AF/Trimester. Because the % of Historical Water Use does not exceed the 10% threshold, no mitigation is required.

Greg,

The attached modeling shows only one year (2014) of use. Your March 26 modeling shows two years (2014 & 2015) of use. So are you thinking only one year now?

Subject: Lisa Funk applications to rent

Greg Sullivan,
IDWR has not yet received the signed Kip Hunter lease agreement. None-the-less, I hope to finish up the review for Lisa Funk's rentals of the Hunter's right and Alan Funk's right with the assumption that the Hunter agreement is in the mail.

I have verified your modeling. No problems there. But both modeling runs are close to having problems in the Blackfoot-to-Neeley reach.

The volumes you have modeled don't match the volumes on the two applications so I'm confused.
For the 79-acre rental application you modeled 97 AF/trimester or 291 AFA but the front page of the application requests 316 AF.
For the 42-acre rental application you modeled 51.6 AF/trimester or 155 AFA but the front page of that application requests 168 AF.

I recognize that the rented rights are providing less than 0.02 cfs/ac while the irrigation requirements could be more. I don't have any notes that we discussed this. If we have, I apologize for asking for this added clarification. Neither of the rental applications nor the cover letter provided me any guidance.

Thank you.

Michele Edl

Greg Sullivan,
IDWR has not yet received the signed Kip Hunter lease agreement. None-the-less, I hope to finish up the review for Lisa Funk's rentals of the Hunter's right and Alan Funk's right with the assumption that the Hunter agreement is in the mail.

Subject: Kip Hunter Lease and Rental

Michele,

The Department confirmed in 2013 that the 121.0 acres under water right 35-2824 are supplemental to Aberdeen Springfield Canal Company shares. There was lengthy discussion with the Department and representatives of Lance Funk Farms. Through the discussion with IDWR staff, Lance Funk Farms representatives were told by IDWR agents that because the proposed 2013 rental POU is located outside of the Aberdeen Springfield Canal Company service area that the entire 121.0 acres would not be available. Adjustments were made to the 2013 rental, acres were left dry and Lance Funk Farms took a financial loss on the acres not covered by the rental.

Also in 2013, there was a transfer proposing to permanently move the 121.0 acres outside of Aberdeen Springfield Canal Company service area to the proposed rental POU location. That transfer was protested. The Water Supply Bank would not approve the reduced rental without the consent of the protestant. In an effort to minimize financial loss due to not irrigating, we worked out a deal with the protestant and agreed to irrigate 41.0 acres under the rental and withdraw the transfer. This agreement does not mean that Lance Funk Farms agreed that 35-2824 is only worth 41.0 acres, it means that Lance Funk Farm agreed that 35-2824 is only worth 41.0 if 35-2824 is transferred or rented outside of Aberdeen Springfield Canal Company service area.

The 2014 rental of 106.0 acres of 35-2824 is based on the guidance given to Lance Funk Farms in 2013 by IDWR agents. The entire 121.0 acres would be available to be rented if the proposed place of use of the rental is with the Aberdeen Springfield Canal Company service area. That is why the 2014 rentals of 35-2824 are proposed for Lisa Funk's properties which are within the service area of Aberdeen Springfield Canal Company. The 106.0 acre rental still complies with the conditions of 35-2824 that state that "use of this right is combined with water from Aberdeen Springfield Canal Company".

I have verified your modeling. No problems there. But both modeling runs are close to having problems in the Blackfoot-to-Neeley reach.

The volumes you have modeled don't match the volumes on the two applications so I'm confused.

For the 79-acre rental application you modeled 97 AF/trimester or 291 AFA but the front page of the application requests 316 AF.

For the 42-acre rental application you modeled 51.6 AF/trimester or 155 AFA but the front page of that application requests 168 AF.

I recognize that the rented rights are providing less than 0.02 cfs/ac while the irrigation requirements could be more. I don't have any notes that we discussed this. If we have, I apologize for asking for this added clarification. Neither of the rental applications nor the cover letter provided me any guidance.

Thank you.

RE: Water Supply Bank Rental Applications-Rental of 35-2824

Dear Mr. Sullivan:

The Department acknowledges the two Water Supply Bank (Bank) rental applications you submitted on March 26, 2014. The applications propose to use water right 35-2824 to cover the irrigation of two parcels of 42 and 79 acres.

Last year water right 35-2824 was leased into the Bank and we are now finalizing the renewal of that lease through 2015 per the lease application.

Please note that water right 35-2824 can only provide 41 acres due to the supplemental nature of that right. There were many discussions last year regarding this topic and last year's lease and rental of water right 35-2824 reflected that 41 acres of irrigable land was authorized through the Bank.

Please provide additional ESPA modeling and water rights to fulfill your 121 acre proposal within 14 days. If the Department does not receive a response within 14 days, the Department will proceed with partially fulfilling the 42 acre parcel with water right 35-2824 and the rental application for the 79 acre parcel will be denied.

If you have any questions regarding this matter you may contact me at (208) 287-4944.

Sincerely,

Cherie Palmer, Sr. Water Resource Agent

Re: Kip Hunter Lease/Lance Funk Rentals

Dear Mrs. Palmer:

A lease application was submitted for 35-2824 last week. The rental applications to utilize 35-2824 were not included in the packet.

Two rental applications are being submitted at this time to the Idaho Water Supply Bank for property owned by Lisa Funk. The rental applications are for 79 acres and 42 acres for the 2014 and 2015 irrigation season. These rental applications water needs are to be filled by 35-2824. ESPA model analysis has been submitted with the rental applications.

Please copy our office on all correspondence regarding this applications.

Sincerely,

Greg Sullivan, M.S.
