Subject: Water Right Transfer for Funk

Jason,

I am preparing the two transfers you sent for the Funks for advertising. There is a some additional information that I will need first.

- For the "Change in Nature of Use" there is an additional 250.00 fee that will be needed that was not included with the \$880.00 that you sent. This fee is noted on the Fee Schedule.
- For the Change of Ownership. I will need a Warranty deed to show the actual sale of the 2 cfs portion of the water from the Toevs to the Funks. The Purchase agreement is sufficient enough to accomplish the transfer however. The Change of Ownership can be finished at a later date if needs be.

If you have any questions feel free to call or email me.

Thanks,

Scott R. Bergendorf
