STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

RECEIVED

SEP 29 2014

Department of Water Resources
Eastern Region

NOTICE OF PROTEST

This form may be used to file a protest with the department under sections 42-108B, 42-203A, 42-203C, 42-211, and 42-222, Idaho Code. The department will also accept a timely protest not completed on this form if it contains the same information.

1. Matter being protested TRANSFER No. 79509
2. Name of protestant MARIE C. GALLOWAY
3. Protestant's Representative for service (If different than protestant)

4. Service mailing address ZOBI WARE RD. DOWNEY ID 83234
5. Service telephone no. 897-5374 Email Address: _____
6. Basis of protest (including statement of facts and law upon which the protest is based)

SEE ATTACHED

(additional pages may be attached to describe nature of the protest)

7. What would resolve your protest? To not allow this proposed change.

I hereby, acknowledge that if I, or my designated representative, fails to appear at any regularly scheduled conference or hearing in the matter of which I have been notified at the address above, the department may issue a notice of proposed default against me in this matter for failure to appear. I also verify that I have served a copy of this protest upon the applicant.

Signed this Sept day of 23, 20 14.

Marie C. Galloway
Protestant

Protestant's Representative

Receipt - E040301

Do not allow the proposed water right change under transfer #79509.

When the original well in Section 18 was drilled it dropped our well water and burned up three motors until we put in another well. Every irrigation season drops my water level to a point of pumping a black like peat moss mud.

This past summer with the illegal connection of two wells, I was unable to water my yard or animals since sometime in July, 2014 to the present. The house water is next to none and mud has started coming through again. I'm an elderly widow on a fixed income living alone in my home and my water is very important to me. This has been my home for all my married life.

I do not see how they figure they have extra water with an eight tower twenty year old pivot plus they run three or four hand lines at the same time. The property has been sold numerous times and I have never seen a new sprinkler package put on this older pivot. It is my understanding that it has sold numerous times because this area does not have enough water for the ground it covers.

The natural spring to Wire Grass has been illegally changed to pond it up. This has caused the water flow to Wire Grass to stop the natural flow and watering of cattle. Since the illegal connection of the two wells it has even dried up the little water pond that the previous owner illegally did. This connection has changed the dynamics of the water flow already and should not be allowed.

Thank you.
