CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.

3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. Rental of the leased portions of water rights 85-02146, 85-04483, and 85-15424 is limited to a total combined diversion rate of 5.5 cfs and diversion volume of 1576.6 acre-feet during the rental period.
11. The water right(s) referenced above is accepted into the bank and rented in accordance with a private agreement formulated between the lessor and the renter. Administrative fees will be paid based on the current rental rate.

CONDITIONS APPLICABLE TO RIGHT 85-02146:

12. Point of injection in T33N, R03W, S29, SESW is into Webb Creek. Point of rediversion in T33N, R03W, S06, Lot 2 (NWNE) is from Webb Creek via the Webb Creek Canal. Point of injection in T34N, R04W, S34, NENE is into the East Fork of Sweetwater Creek.
13. Use of water under right 85-02146, including the water use authorized under this rental agreement, may not exceed a total diversion volume of 2000 acre-feet.

CONDITIONS APPLICABLE TO RIGHT 85-04483:

14. Use of water under right 85-04483, including the water use authorized under this rental agreement, may not exceed a total diversion rate of 55.0 cfs or a total diversion volume of 10,500 acre-feet.
15. The renter may not divert water to fill the use authorized under this rental agreement unless it is water that could otherwise be diverted to storage from Mann Lake.

CONDITIONS APPLICABLE TO RIGHT 85-15424:

16. Point of injection in T33N, R04W, NWNW is into an unnamed stream tributary to the West Fork of Sweetwater Creek.
17. Use of water under right 85-15424, including the water use authorized under this rental agreement, may not exceed a total diversion volume of 3497.5 acre-feet.

D. GENERAL INFORMATION

1. Please provide a description of the proposed diversion system.

See Attachment A

2. Describe any other water rights diverted through the same point(s) of diversion or used for the same purpose(s) as described above.
IWRB Right No 85-15603

3. Will the proposed place of use receive water from any other source? N/A Yes ☐ No ☐

If yes, describe. _____

4. If the proposed use is not for irrigation, please provide a detailed description of the proposed use and how you determined the amount of water required. Attach additional sheets if needed. Instream use under IWRB's Right No. 85-15603

5. Are there any other applications pending before the Department, such as an application for permit or transfer, for the same use(s) proposed by this rental? Yes ☐ No ☒

If yes, describe. _____

6. Was this rental application submitted in response to a Notice of Violation or a pending Notice of Violation? Yes ☐ No ☒

If yes, please specify the number of years desired through proposed rental. _____

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

If this application is approved, the applicant agrees to the following:

1. The use of water under this agreement shall be subject to the provisions of Section 42-1766, Idaho Code.
2. Renter shall comply with all applicable state and federal laws while using water under this agreement.
3. Renter shall hold the Board, the Director, and the state of Idaho harmless from all liability on account of negligent acts of the renter.
4. The Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
5. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
6. Renter is not authorized to use water proposed by this application until the rental fees are paid in full and the renter receives an executed copy of the agreement signed by the Director.

Attachment A

The applicant, the Bureau of Reclamation, intends to rent its own water out of the water supply bank for endangered species needs associated with the Lewiston Orchards Project. There are two parts to the rental. The first part is intended to augment flow to ensure the following instream flow targets are met at the designated locations.

Instream Flow Targets		
	Webb Creek downstream of diversion dam (cfs)	Sweetwater Creek downstream of Sweetwater diversion dam (cfs)
June	2	3.5
July	2	3.5
Aug	2	3.5
Sep 1-15	2	3.5
Sep 16-30	1	2.5
Oct	1	2.5

The maximum volume based on the above table is 1,486 acre-feet. The rate of water to be released is unknown at present because some of the flow target will be met by natural flow not covered by this rental. Required releases under this rental will be made real-time, such that when added to the natural flow not covered by this lease the flow targets in the table above are met. The second part of the rental is for 90 acre-feet, which will be provided throughout the above time period at a rate and time as requested by the Nez Perce Tribe. The total maximum is 1,576 acre-ft (1,486 acre-ft plus 90 acre-ft). The water will be rented from a combination of the following three reservoirs which Reclamation owns: Soldiers Meadow Reservoir, Mann Lake, and Lake Waha, under Water Right Nos. 85-02146, 85-04483, and 85-15424 respectively. All three reservoirs supply water to the Lewiston Orchards Irrigation Project. The lease and rental is from June 1 through October 31, 2014.

The water rights are to be rented into the Idaho Water Resource Board's (IWRB's) instream right No. 85-15603, for which the measurement point is the mouth of Lapwai Creek. The water will be delivered from (1) Lake Waha, (2) Soldiers Meadow Reservoir, or (3) the diversion dams at Sweetwater Creek from water that is forgone from being stored at Mann Lake. It will be delivered down to the measurement point for the IWRB's water right No. 85-15603. Administration of rented water is to be accomplished under Idaho Code § 42-801.

The following measurements will occur to ensure there is not an expansion of the Applicant's storage rights as a result of this rental.

- a. Measurements of Mann Lake under water right No. 85-4483

i. Objective: Ensure the total of the volume stored for the year in Mann Lake and the volume attributed to the rental from Mann Lake storage does not exceed 10,500 acre-ft.

ii. Method: Lewiston Orchards Irrigation District will measure 1) the rate and the associated volume of flow into Mann Lake that is not attributable to storage at the upper reservoirs and 2) the volume of water delivered to Mann Lake from water that was previously stored in the above reservoirs. The volume of water delivered out of Mann Lake will be measured by an existing device on the outlet works for Mann Lake that totalizes the volume of water delivered out of Mann Lake. Additional storage for carry-over in Mann Lake will be calculated from elevation measurements. From these measurements, the volume of the water diverted to the creek that is attributable to storage water right No. 85-4483 will be calculated.

The District will also show that at any given time that both Mann Lake and Sweetwater Canal have the physical capacity to take the flow in the Creeks that is considered to be forgone storage water from right No. 85-4483 under this rental agreement.

b. Measurement of volume used in the rental program from the Soldiers Meadow Reservoir water right No. 85-2146 to ensure storage right is not enlarged

i. Objective: Ensure the total storage for Soldiers Meadow Reservoir in a given year does not exceed 2,000 acre-ft under water right No. 85-2146.

ii. Method: The volume released from storage for both irrigation and the water rental will be measured. The additional carryover accumulated will be calculated from elevation measurements. These two volumes together must not exceed 2,000 acre-ft.

c. Measurement of Volume used in the Rental Program from the Lake Waha water right No. 85-15424

i. Objective: Ensure that the total storage at Lake Waha does not exceed 3,497.5 acre-ft.

ii. Method: Calculate the volume released from storage for irrigation in addition to the additional carryover accumulated, which must not exceed 3,497.5 acre-ft.

**RE: EXPIRATION OF RENTAL AGREEMENT FOR WATER RIGHT NO(S). 85-2146,
85-4483, and 85-15424 FROM THE WATER SUPPLY BANK**

Dear Renter:

This letter is to inform you that your Rental Agreement for rental of water from the Water Supply Bank has expired. You applied for the rental of water on 6 /2 /2014 and the subsequent Rental Agreement authorized diversion of water under Water Right No(s). 85-2146, 85-4483, and 85-15424 through the 2014 season only.

The Rental Agreement is expired, or will be expired by the end of the season of use, and the water use in connection with the rental will no longer be in effect. Any diversion or use of water associated with this rental agreement is not authorized and, if occurring, will be subject to any necessary enforcement action.

If you wish to rent water in the future, please reapply using new forms from the Department's website at www.idwr.idaho.gov. If you have any questions regarding this matter, please contact me at (208) 287-4944.

Sincerely,

**RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 85-02146, 85-04483, & 85-15424**

Dear Renter:

Idaho Department of Water Resources acknowledges receipt of payment in the amount of \$2,680.22 via electronic funds transfer. Please find enclosed a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 1576.6 acre-feet of water for minimum stream flow. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, the rental fee will be retained by the Department to offset administrative costs since you have a private agreement with the lessor of the right(s).

If you have any questions, please contact me at (208) 287-4944.

Sincerely,

Cherie Palmer

As you can see they were going to pay through an the online IPP; but, then switched to EFT. I inquired of Paula Collins where that might be last Monday; and, did not hear back from her, yet.

Yes - for that PO that you are TRYING to get paid, please send me the invoice for payment. Because of the coding we put in the PO (basically a 'utility'-type award), it will not be paid through IPP.

I will submit the invoice the old-fashioned way! Which is better!!!

RE: RENTAL FEE DUE FOR RENTAL OF WATER RIGHT NO(S) 85-02146, 85-04483 AND 85-15424

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Renter:

The Department of Water Resources is unable to execute the rental agreement for Water Right Nos. 85-02146, 85-04483 and 85-15424 until rental payment is received. In accordance with the Water Supply Bank Rental Agreement signed by you on July 2, 2014, the rental fee for these water right(s) is \$2,680.22, since you are both the lessor and the renter of the rights.

Please submit payment of \$2,680.22 made payable to the Idaho Department of Water Resources no later than **August 11, 2014** if you propose to continue the water use authorized under this rental agreement. The rental agreement will be void if the payment is not received by the due date.

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 85-02146, 85-04483 AND 85-15424**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$2,680.20 was calculated based on the current rental rate of \$17.00 per acre-foot times a diversion volume of 1,576.6 acre-feet. Since you are both the lessor and the renter of the right(s), **you are only obligated to pay the 10% administrative fee or \$2,680.22.**

Please send a check for \$2,680.22 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

If you have any questions, please contact me at (208) 287-4944.

Sincerely,

Cherie Palmer
Senior Water Resource Agent

Re: 2014 Bureau of Reclamation Water Supply Bank Rental Application

PURPOSE/NARRATIVE: On May 30, 2014, the Department received an application from the US Bureau of Reclamation (BOR) to rent its own surface water from the WSB for a period of one-year from June 1 to October 31, 2014. The application was signed by Jerrold Gregg, Area Manager from the Snake River Area Office.

The water will be used for endangered species needs associated with the Lewiston Orchards Project and will be administered as two parts. The first part, using 1,486.6-AF, is intended to augment stream flows to fulfill the IWRB's instream right (85-15603), and the second part, using 90-AF, will release water as requested by the Nez Perce Tribe.

The total 1,576.6-AF of water will come from the following three reservoirs which the BOR owns: Soldiers Meadow Reservoir, Mann Lake, and Lake Waha.

Similar rentals have been approved, at least since 2007.

AUTHORITY TO FILE: Jerrold Gregg is listed on the BOR webpage as the Area Manager from the Snake River Area Office.

WATER RIGHT VALIDITY: The water rights in the Bank, 85-2146, 85-4483, 85-15424, provide a sufficient supply to satisfy the rental. The portions of water rights in the bank will be used for IWRB's instream right 85-15603.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the rental. The rental application came attached with an outline of how significant effort will be put forth measuring flows and reservoir levels to ensure no enlargement of the applicant's storage rights.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The rented right(s) are not subject to a Water District but are within the Lindsay Creek Ground Water Management Area.
