

MEMORANDUM

DATE: September 26, 2014

RE: Change of Ownership 31-145 (Split into 31-145 & 31-12345), 31-146 (Split into 31-146 & 31-12346), 31-11359 (Split into 31-11359 & 31-12347)

Correction for Ownership Change

The department was notified of an error in a completed Ownership change. The ownership change was completed without a split and the water rights should have been split.

When splitting the water right the department gave the buyer the original water right number. With the ownership change there is a deed specifically deeding the water rights from the two property owners to the two property owners and a third person. Because the original water right numbers were listed on that deed, I thought it would be less confusing if the department gave the buyers the original water right numbers as listed on that deed.

The remaining portion of the water rights will also require an ownership change the current owner as listed is no longer valid.
