Permit to Appropriate Water

NO. 74-15964

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **October 01, 2015**.
2. Subject to all prior water rights.
3. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 74.
4. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
5. Right 74-15964 authorizes the diversion of an annual total of 24 acre-feet to be used for the initial filling of the pond and for the replacement of losses caused by evaporation.
6. The pond established by the storage of water under this right shall not exceed a total capacity of 20 acre-feet or a total surface area of 2.0 acres.
7. Water stored under this right is subject to fluctuations of the water table caused by changes in the flow of local streams and by diversions under prior ground water rights. This right does not guarantee the maintenance of any particular ground water level.
8. The waste water diverted under this right is subject to the right of the original appropriator, in good faith and in compliance with state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place of use or manner of wasting it, or to recapture it.
9. Prior to the diversion and use of water under this approval, the right holder shall install a functioning fish screen approved by the Idaho Department of Fish and Game on the pond outlet structure.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 22nd day of September, 2014.
