PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 67-15088

Dear Permit Holder(s):

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

During my review of your proof and water right permit, I found that condition no. 6 of this permit might not have been complied with.

Condition no. 6 of this permit which states:

"The right holder shall install a measuring device acceptable to the department on any point of diversion authorized under this right. The measuring device shall be capable of displaying instantaneous diversion rates and totalized volume measurements. The right holder shall record rate and volume measurements monthly for any calendar year during the first five irrigation seasons in which water is diverted in connection with this right and shall make the records available to the department upon request. One measurement shall be in April for each year this right is being used."

I recommend that this condition be complied with immediately and prior to the field examination. Enclosed is a copy of this permit for your information.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov

If you have any questions concerning the field examination, please contact the Western Regional Office of the department in Boise, Idaho 208-334-2190.

Sincerely,

Darla Block
Technical Records Specialist
