Subject: Water permit 74-15615

The Department of Water Resources is in the process of reviewing the above mentioned permit for licensing. This permit is for domestic use of one home in Lemhi County, Idaho. After reviewing aerial photography, it appears there is not a permanent structure on the property to apply the domestic use.

Do you park a recreational vehicle on the property sometime during the year? If yes, do you pump water from the spring for your domestic use?

The Department will also need pictures of your diverting system. Please respond to this email within 30 days. If you have any questions, please contact me at the number below.
