ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.

3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, the lease term expires, or upon request from the lessor to change the term of the lease, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed.
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season.
 - b. If a change in ownership is processed by the Department during a rental season, rental payment will be made to the person or entity who is the lessor of record at the beginning of that rental season.
 - c. New lessor(s) of record will receive payment after the following rental season.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Industrial use is for a meat processing plant.
13. The period of use for the irrigation described in this approval may be extended to an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water after 11/01 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than August 14, 2007.
14. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.

Enclosure: Proposed Lease Contracts

MEMORANDUM

To: 61-12991
From: Clay Webster
Date: September 5, 2014
Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: The department received an application to lease a portion of 61-12991 to the WSB on March 28, 2014 for three years. We also received this application to rent the remainder of the right into the bank for two years.

Received Map of 5.7 acres to be idled on 9/5/2014

AUTHORITY TO FILE: This applications was submitted by J R Simplot Company's Representative Vic Conrad. They were signed by Jodee Kelly, their Assistant General Counsel

WATER RIGHT VALIDITY: This right was decreed by the SRBA in Aug 2007 under WR # 61-2165. 61-12291 was split off from this right in a transfer in 2013. The right has been in the WSB in part since 2005. Forfeiture is not an issue at this time.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right is not subject to a State Water District. No comments are required as this lease will replace an indefinite lease.

Vic,

Cherie emailed you a letter on Mar 4, 2014 about several issues. I received two lease applications on this right as a result of that. The 1st one was for 194.3 acres with 59 acres of right 61-2165. (That one has been completed). This was the other one I received from Simplot for 61-12291 for 5.7 Acres. I just need the map of the 5.7 acres not irrigated. The tablature states it is in 3S 6E sec 8 SE SW.

Clay, I need to get back into these documents to refresh my memory as to what you need. Was I originally working with Cherie on this? I think the original inquiry came from Cherie – the focus of which were the terms of leases by others from the bank on this water right. Is this correct?

Is your request to identify 5.7 acres that were not irrigated during 2014 in order to provide water through the bank as a result of a lease application by someone else? Or is your request the result of an application to lease water from the bank submitted by Simplot.
