RE: LEASED WATER RIGHT NO(S). 31-7084 RELEASED FROM THE WATER SUPPLY BANK

Dear Lessor:

On December 22, 2015, the Department of Water Resources (Department) received your request to cancel the existing Water Supply Bank (Bank) Lease Contract executed on January 1, 2014 and release water right(s) 31-7084 from the Bank. **At this time the Department acknowledges that the Bank Lease Contract for 13 acres of water right(s) 31-7084 has been canceled releasing the right(s) from the Bank.**

The five (5) year period of nonuse related to forfeiture of a water right shall begin to accrue upon release of the right from the bank or shall continue to accrue if a period of nonuse occurred prior to the lease date of the right to the bank.

You can reapply to lease the water right(s) in the future by submitting new application form(s) from the Department's website at www.idwr.idaho.gov along with applicable fees.

If you have any questions regarding this matter, please contact me at (208) 287-4910.

Sincerely,

for Clay Webster

**WATER SUPPLY BANK
REQUEST TO RELEASE A WATER RIGHT FROM THE BANK**

ONE FORM PER WATER RIGHT

RECEIVED
DEC 22 2015
DEPARTMENT OF
WATER RESOURCES

All water rights leased into the Water Supply Bank shall remain unused by the water right holder for the duration of the Lease Contract. The water right will not be released from the Water Supply Bank until the conclusion of the Lease Contract unless otherwise authorized by the Idaho Water Resource Board. Water right holders may use this form to petition for early termination of their Water Supply Bank Lease Contract.

Water right holders seeking an early termination of a Lease Contract must demonstrate justifiable need for the release. Water rights under Lease Contract that are eligible for early termination can be released from the Water Supply Bank if the release will not impair administration of the Water Supply Bank. **If a water right is currently rented, it cannot be considered for release until the Rental Agreement concludes.** A water right is not released from the Water Supply Bank until written release confirmation is issued by the Water Supply Bank.

Lease Contract Expiration Date: 12/31/2018

Requested Release Date: 12/31/2015

Reason for Early Release:

Acres in Water Supply Bank have been used in transfer numbers 80079, 80087, 80094, & 80105, in response to Notice of Violations. In addition a transfer has been filed on 5.1 acres of these two water rights to satisfy a protest to Transfer 80079. Acres not used in these transfers will return to the original place of use.

RE: RELEASE OF WATER RIGHT NO(S). 31-7569, 31-7267A and 31-10964A FROM THE WATER SUPPLY BANK

Dear Mr. and Mrs. Egbert:

On September 18, 2014 the Department of Water Resources ("Department") executed lease contracts that accepted water rights 31-7084, 31-7569, 31-7267A and 31-10964A into the Water Supply Bank ("Bank") through December 31, 2018.

We received your request to release water rights 31-7267A and 31-10964A from the water supply bank on November 24, 2015. Upon review of this request we found that acres identified in the lease contract were not being idled under 31-7569.

This letter is notice that your lease contract is being cancelled and acceptance of water rights 31-7569, 31-7267A and 31-10964A into the Bank has been rescinded.

I have enclosed two original Water Supply Bank Lease Contracts for the remaining water right 31-7084, **for your review and signature. Please sign and return both Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2018**, unless the rights are released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your rights may not be available for immediate release if they have been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, the lessor may not use the right without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have any questions, please contact me at (208) 287-4910.

Sincerely,

Clay Webster
Water Resource Agent

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season.
 - b. If a change in ownership is processed by the Department during a rental season, rental payment will be made to the person or entity who is the lessor of record at the beginning of that rental season.
 - c. New lessor(s) of record will receive payment after the following rental season.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

RE: WATER SUPPLY BANK LEASE CONTRACT FOR RIGHTS 31-7084, 31-7569, 31-7267A and 31-10964A

Dear Lessor:

Water Rights 31-7084, 31-7569, 31-7267A and 31-10964A were leased into the Water Supply Bank on January 1, 2014 in accordance with the executed original Lease Contract enclosed. **Your water rights as described on the Lease Contract are considered leased into the Bank and should remain unused until they are formally released from the Bank.**

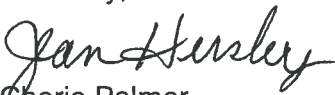

The rights will automatically be released from the Bank on **December 31, 2018**, unless the rights are released earlier by the Board, or upon your request. **Please note your rights may not be available for immediate release if they have been rented.** To release the right from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available from our public website at www.idwr.idaho.gov.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

**RE: APPLICATION(S) TO LEASE WATER RIGHT(S) 31-7084, 31-7569, 31-7267A and 31-10964A
TO THE WATER SUPPLY BANK**

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return BOTH Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The rights will automatically be released from the Bank on **December 31, 2018**, unless the rights are released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your rights may not be available for immediate release if they have been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

MEMORANDUM

TO: Water Right Files 31-7084, 31-7267A, 31-7569 & 31-10964A

FROM: Pam Skaggs

SUBJECT: Phone conversation with Kirk Egbert regarding lease acres

DATE: 05-12-2014

I spoke on the telephone today with Kirk Egbert right holder and lease applicant for the rights referenced above. Review and evaluation of these rights during the previous lease years found that while acres dried-up were roughly equivalent to the leased acres in numbers, they were not accurately described. (See Dan Nelson's 04-07-2014 memo.) Mr. Egbert noted that he has no plans to change his system this year from 2013 irrigation practices and is comfortable with the leases representing the 71 non-irrigated acres identified by Dan in his review. Leases will be drafted to reflect the 71 acres retired in 2013. A map will be sent to Mr. Egbert along with the Lease contracts to clearly define the location of the leased acres.

MEMORANDUM

TO: Water Right Files 31-7084, 31-7569, 31-7267A, and 31-10964A
FROM: Daniel A. Nelson
DATE: April 7, 2014
SUBJECT: Kirk Egbert Water Supply Bank Lease

SUMMARY

I have been asked to review an existing Water Supply Bank Lease on water rights 31-7084, 31-7569, 31-7267A, and 31-10964A. I compiled a memo on January 24, 2012 on this same lease, and this memo is an updated version of my earlier memo. I have also included maps with this memo. During this review, I reviewed the 2013 NAIP aerial photography and the 2013 LandSat satellite photos. According to the September 17th 2010 lease application, a total of 74 acres were to be leased to the Water Supply Bank, and the lands formerly irrigated ground was supposed to have been retired. In 2011, I found that majority of the acres had not been retired under the lease, and the full amount was being used at the place where the water was moved to under the rental agreement. The existing Water Supply Bank lease would retire 20 acres from water right 31-7084, 38 acres from water rights 31-7267A and 31-10964A, and 16 acres from water right 31-7569. My evaluation from 2012 and my evaluation of the 2013 aerial photography shows the following:

Water Right	Water Right Acres	Acres Actually Irrigated in 2011	Acres Actually Irrigated in 2013	Acres From Original Water Right Not irrigated 2011	Acres From Original Water Right Not irrigated 2013	Acres Required To Be Retired For Water Supply Bank Lease
31-7084	272	262	259	10	13	20
31-7569	142	140	137	2	5	16
31-7267A & 31-10964A When Combined.	302	284	249	18	53	38
TOTALS				30	71	74

As you can see from the above table, I determined that of the 74 acres that were to be retired under this lease, only 30 acres were actually retired in 2011 and 71 acres retired in 2013.

This water right has been rented. The rental was used to cover approximately 287 acres of irrigation in Section 1 and Section 2 of Township 7 North, Range 37 East. The existing water rights on this land allowed the following:

Water Rights	Acres Allowed
31-11954	11.1
31-11947	42.9
31-11410, 31-11414, and 31-11428 When Combined for 2011.	140
TOTAL	194 ACRES ALLOWED BY WATER RIGHTS

The table above shows that the water rights allowed 194 acres to be irrigated. The Water Supply Bank rental allowed an additional 74 acres for a total of 268 acres of irrigation. However, only 30 acres under the lease were actually retired in 2011 and 71 acres under the lease were actually retired in 2013. If we only allowed the acres that were retired under the lease to be moved to the new place of use, then the acres allowed would be 224 acres in 2011 and 265 acres in 2013. I am not sure we can allow only a partial lease or not, but I want to show the relationship between actual irrigated ground and the water rights both in and out of the Water Supply Bank.

My 2012 memo was given to Rob Whitney, and there was some confusion over the actual acres irrigated per the USDA Farm Service Agency (FSA) maps, which only showed 247.1 acres being irrigated. The FSA maps did remove the rock piles from the underneath of the pivot, even though they were being irrigated. While working with Mr. Whitney, Denise Kidman of our eastern region office tried to duplicate the FSA maps and came up with 262.4 acres in 2009 and 273 acres in 2011. The discrepancy between Ms. Kidman's maps and the FSA maps were never resolved, and a Notice of Violation or Pending Notice of Violation was never issued. I spoke with Rob Whitney, and he agreed that it appears that this file needs to be researched further. I will send a copy of this memo to Mr. Whitney.

I reviewed the acres irrigated on the rental property in 2013 and found that not much had changed. The following is a listing of my findings:

Water Rights and Water Supply Bank Rentals allow =	268 acre (With Full 74 acre Rental)
Water Rights and 2011 Actual Retired acres allow =	224 acres (only 30 acres retired)
Water Rights and 2013 Actual Retired acres allow =	265 acres (only 71 acres retired)

Acres actually irrigated on rental acres (Sections 1 and 2) per the different sources:

Dan Nelson's 2011 map including rock piles =	287 acres
2010 FSA map excluding rock piles =	247.1 acres
Denise Kidman's 2009 map excluding rock piles =	262.4 acres
Denise Kidman's 2012 map excluding rock piles =	273 acres
Dan Nelson's 2013 map including rock piles =	276 acres
Dan Nelson's 2013 map excluding rock piles =	269 acres

From the information above, if the Mr. Egbert had retire the full 74 acres, and the Department agreed to remove the rock piles from the acres being irrigated, Mr. Egbert would have been pretty close to being in compliance in 2013. However, Mr. Egbert retired 71 acres of the 74 acre lease agreement, so there is a bit larger discrepancy in the number of acres that can be irrigated. From my review, the full 74 acres has not been retired, and the full amount of ground irrigated with or without the rock piles was irrigated.

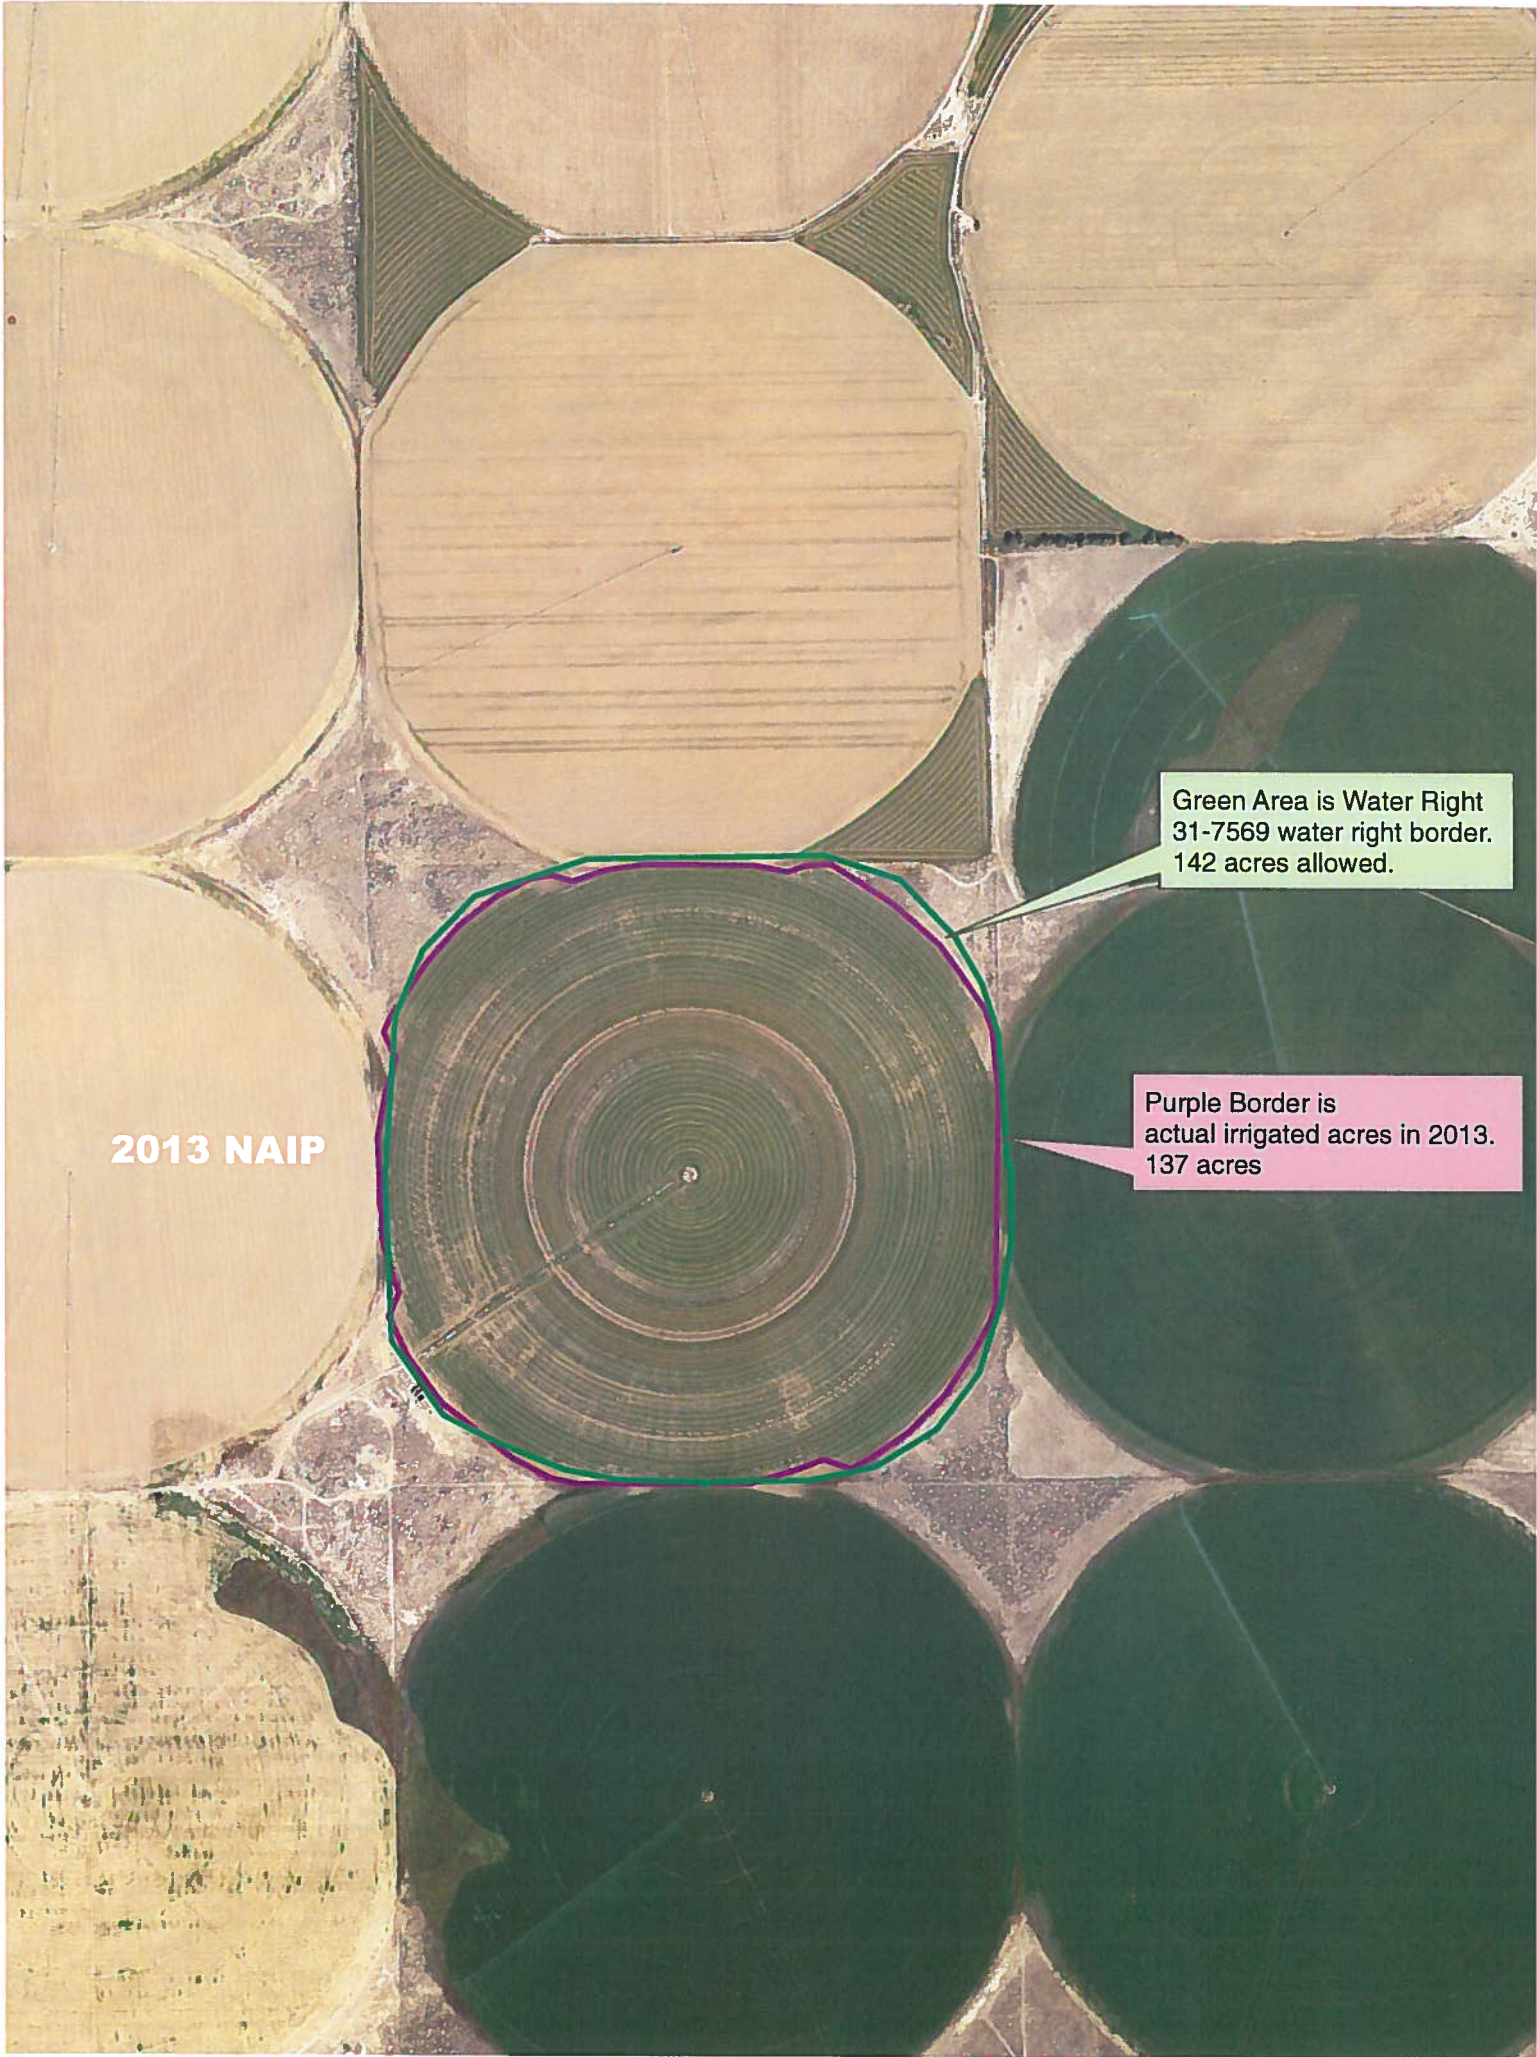

In conclusion, the full 74 acres under the lease agreement has never been retired. The maximum number of acres that have been retired under the lease agreement is 71 acres in 2013. The proper number of acres were not retired in 2011, so it wasn't until we started the investigation in 2012 that a fairly close number of acres were retired. The acres irrigated at the place of use for the rental portion of this agreement have been fully irrigated, so the full 74 acres under the lease would be required to legally irrigate these acres. The amount of discrepancy between the numbers is dependent on whether or not the Department includes the rock piles in the number of acres irrigated or not and the determination of the validity of the lease agreement with the reduced number of acres that were retired. The final question is whether the Water Supply Bank lease can allow a somewhat permissible place of use type of retirement on water rights that are not physically connected together.

- the answer to this question is NO. Individual water rights are under contract which include acres to be idled, within their place of use (as designated on water right). -cp

Cherie,

Here are the maps you are looking for.

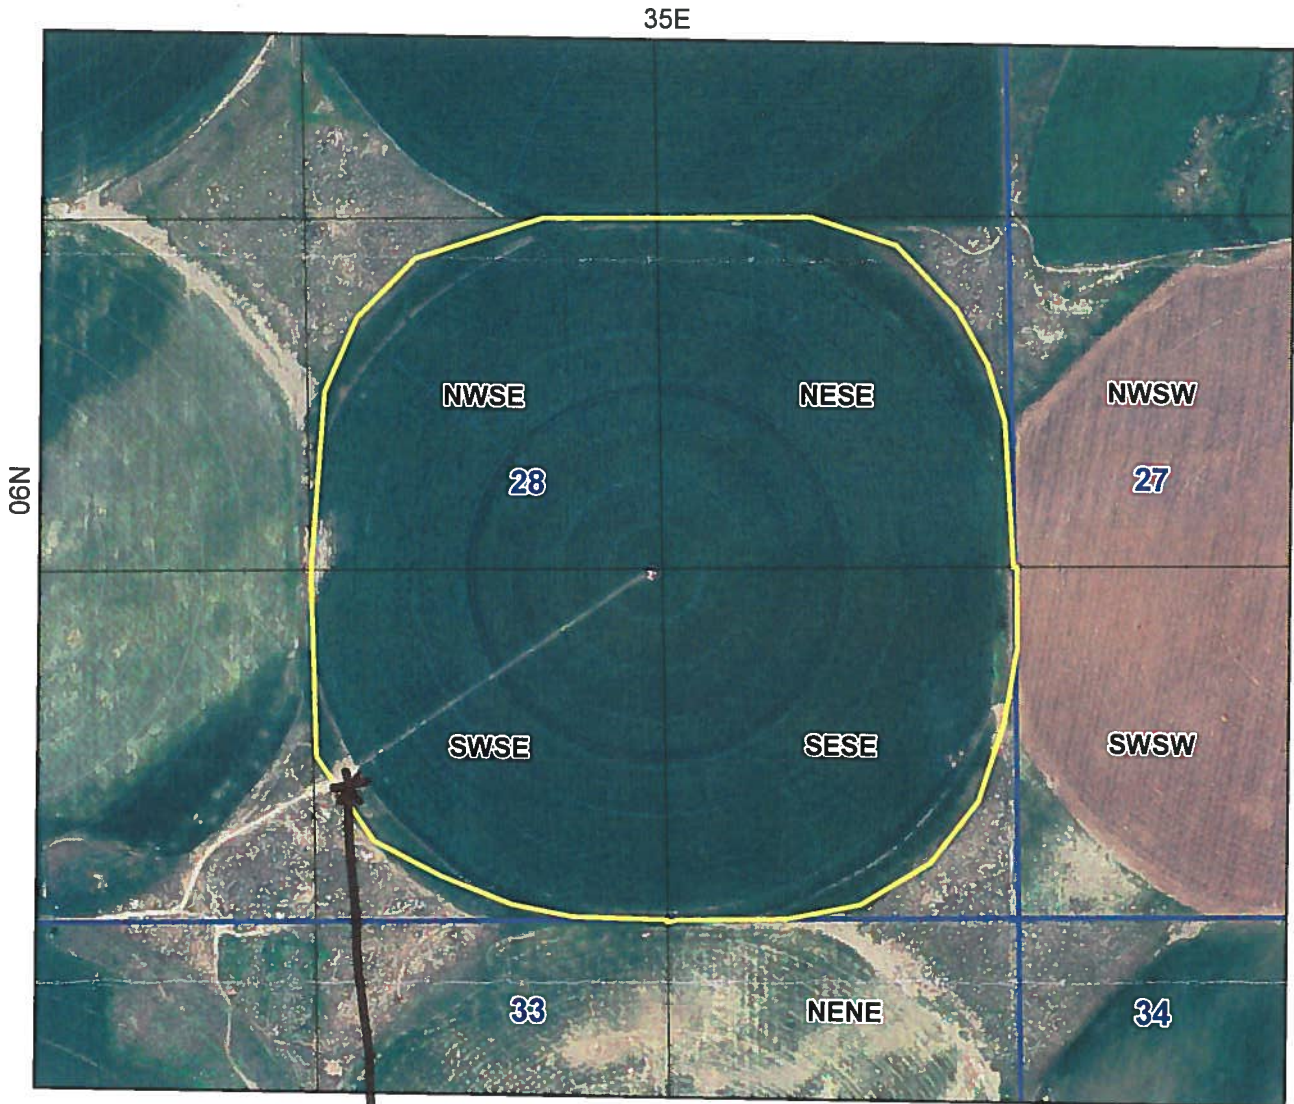

If you have anymore questions, you can call me at 208-663-4505. I know some of those corners look irrigated but they aren't. I must have been the spring rains that made them look irrigated. We also have a stepped up water right involved with this that expands at 5 acres per year.

Thank you,

Kirk Egbert

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of the application(s) to lease the above referenced water right(s) to the Idaho Water Resource Board's Water Supply Bank (Bank). The Department will review your application as resources allow.

If the right(s) is determined to be eligible for acceptance into the Bank, the right will be entered as of the date of receipt of the application. The acceptance date may be adjusted when additional information is required. A preliminary review of your application(s) has been completed and it has been determined that additional information is required to continue processing.

Please provide the following information within 14 days of the date of this letter or the application will be returned:

- a Plat map, survey map or aerial photograph clearly showing the specific acres proposed to be idled for the duration of this lease

The department will continue processing your application(s) once you have submitted the requested information. Water right forms are available from the Department's web site at www.idwr.idaho.gov. If you have any questions, please contact me at (208) 287-4944.

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of the application(s) to extend the leases of the above referenced water right(s) to the Idaho Water Resource Board's Water Supply Bank (Bank). The Department will review your applications as resources allow.

If the right(s) is determined to be eligible for acceptance into the Bank, the right will be entered as of the date of receipt of the application. The acceptance date may be adjusted when additional information is required. A preliminary review of your application(s) has been completed and it has been determined that additional information is required to continue processing.

Please provide the following information within 14 days of the date of this letter or the applications will be returned:

- Additional filing fee. If you are submitting more than one lease application and the rights have a common place of use or common diversion rate or common diversion volume, the combined maximum fee is **\$500.00**. You sent a payment of \$250.00 for three (3) water rights so we need an additional \$500.00. Water right 31-7569 was paid for separately.
- Plat map, survey map or aerial photograph clearly showing the specific acres proposed to be idled for the duration of this lease.

The department will continue processing your application(s) once you have submitted the requested information. Water right forms are available from the Department's web site at www.idwr.idaho.gov. If you have any questions, please contact me at (208) 287-4944.
