RE: Field Examination Required for Permit to Appropriate Water No. 63-12305 (enclosed)

Dear Ms. Rose:

The above referenced permit is subject to field verification (licensing exam or exam) by the Idaho Department of Water Resources (Department) prior to Licensing of the water right. A water Right License is the final stage of a perfected or verified water right.

As required, Proof of Beneficial Use was submitted by Ron Sali for Moon Lake Ranch on February 8, 2001. The Department attempted to schedule the necessary exam in October of 2012. The Department was not contacted by the system operator or official that would accompany Department staff during the exam. X

Please contact me at (208) 287-4924 to schedule the required exam within 10 days of the date of this letter. If the exam is not scheduled and conducted, the Department will take action to void the water permit.

Respectfully,

A handwritten signature in black ink, appearing to read 'R. Whitney', is written over a horizontal line.

Robert B. Whitney

Conditions of Approval:

1. 26A Project construction shall commence within one year from the date of permit issuance

IDAHO DEPARTMENT OF WATER RESOURCES
Proof Report

7/31/2013

- and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
2. R04 Use of water under this water right will be regulated by the watermaster of State Water District No. &DISTRICT.
3. The water right holder shall retain 91.75 shares of Middleton Mill Ditch Co., Middleton Irrigation Association, and Pioneer Ditch Co., and this right shall not be used if the shares of surface water are sold, transferred, leased, or used on any other place of use. Water shall not be diverted from the Boise River under this right except during those times that water from the Boise River is being delivered to Middleton Mill Ditch Co., Middleton Irrigation Association, and Pioneer Ditch Co.
- Diversion and use of Boise River water under this right and the right holder's 91.75 shares of Middleton Mill Ditch Co., Middleton Irrigation Association, and Pioneer Ditch Co. together shall not exceed 1.835 cfs. For purposes of water delivery, the watermaster may consider Boise River water diverted under this right to be one and the same as water diverted pursuant to the Middleton Mill Ditch Co., Middleton Irrigation Association, and Pioneer Ditch Co. water rights and shall deliver according to the priority of those rights.
- Diversion and use of groundwater under this right and adjudication claim no. A63-17205 together shall not exceed the diversion rate, annual diversion volume, and season of use of the historical water use represented by adjudication claim no. A63-17205.
- Groundwater may be diverted pursuant to this right only from March 15 through November 15 of each year and only when Boise River water is not being delivered to Middleton Mill Ditch Co., Middleton Irrigation Association, or Pioneer Ditch Co.
- This right does not authorize diversion from the wells historically used as points of diversion for domestic water uses represented by adjudication claim nos. A63-17210 and A63-17211. Prior to diversion of water under this right, measuring devices and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works at each point of diversion.
- After specific notification by the department, the right holder shall annually report to the department the amount of water diverted pursuant to this right.
- The place of use for irrigation purposes is located within Lots 1-9 and 11-42, Moon Ranch Subdivision.
- The rate of diversion of water for irrigation under this right and all other rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- Irrigation and aesthetic storage use consists of 4 ponds.
- This right authorizes an annual volume of water to fill the ponds and the amount required to replace losses incurred due to evaporation and seepage.
