Teri:

Thank you for taking my call this morning. As we discussed, the last stage in perfecting a water right involves a field verification by the Idaho Department of Water Resources (Department). Permit no. 63-12305 (PDF attached) is in the name of Moon Lake Ranch c/o Ron Sali. Mr. Sali submitted "Proof of Beneficial Use" for the developed permit in February, 2001. Additionally attached is a form "Notice of Change in water Right Ownership". This form may be necessary in the process to reflect ownership of the water right by Moon Lake Ranch Owners Association, Inc.

Department staff would like to conduct the field exam in the near future (if possible) since the irrigation season is quickly coming to an end. Also as we discussed, if staff is unable to collect all necessary information at the time of the exam, follow-up in the spring may be necessary. In order to conduct the exam, staff would like to arrange an on-site with a representative that is familiar with the water system and its operation as well as locations of pertinent features and associated specifications. Please let me know if you can arrange this meeting or who I should contact to do so.

Regards,
