Michele,

Thank you for sending along what you have as mapping of rights. We were told by our real estate person that the State had maps already so we did not have to send any along-- our fault on that and we apologize for the inconvenience.

What you show matches what we have so it looks right to us. Please proceed and if you need anything from us please advise.

Thanks again,

Jim and Jackie Parris

Harold and Jacquelyn Parris,

I have been assigned to complete the ownership change processing for water right 75-4359A. IDWR's processing of the change is stalled because your submittals were incomplete. You did not submit the required map.

In order to move the process forward, I have created and attached a PDF to this email. The attachment is an image which shows the place-of-use and the point-of-diversion of decreed water right 75-4359A as it currently appears in IDWR records. Please confirm for me that this represents your understanding of this water right.

Sincerely,
Michele Edl
