Dear Mr. Erickson:

Gary Harper has notified Northwest Farm Credit Services regarding application #79517 for a Transfer of Water Rights that is to be filed with the Idaho Department of Water Resources. It is my understanding that the transfer is for a change in the Point of Diversion for a new well that will replace an existing well site. It is also my understanding that transfer applications need consent from mortgage holders who have liens on the ground associated with the application. Upon review of the application, Northwest Farm Credit Services who does hold the underlying land mortgage, will not be affected pertaining to the new Point of Diversion and Place of Use associated with the various water rights detailed within the application. Northwest Farm Credit Services does not object and gives full consent to pursue the completion of the application for Water Right Transfer #79517.

Should there be any additional questions or concerns, please give me a call

Sincerely,
