RE: Scheduling Field Exam for Water Permit No. 63-33178

Dear Mr. Cox,

The Idaho Department of Water Resources (IDWR) is planning to conduct water right examinations in the vicinity of the above-referenced permit during the last two weeks of September. An examination is needed to verify water use(s) developed under the permit in order to issue a water right license.

Your permit authorizes domestic, stockwater, and irrigation use from ground water. If you developed a beneficial use of water and still own the place of use property identified in the permit, please contact me at your earliest convenience to schedule an examination.

If you developed a beneficial use of water under the permit but no longer own the place of use property, please use the enclosed Assignment of Permit form (\$25 fee). This will allow IDWR to work with the new permit owner for the license process.

A license cannot be issued if beneficial use of water was not developed or if use was developed but abandoned. In either of those cases, please relinquish the permit by using the enclosed Relinquishment of Permit form (no fee required). The permit will be voided if a relinquishment form is not submitted for either of those cases.

Please contact me within the next thirty (30) days to schedule an examination, submit a relinquishment or complete an assignment. If you still own the property in question but do not make a timely response in this regard, the permit most likely will be voided. If you no longer own that property and do not assign or relinquish the permit, IDWR will work with the current property owner to issue a license or void the permit.

Please call me at 208-334-2190 if you have any questions. I appreciate your attention to this matter and look forward to hearing from you.

Sincerely,

Nicholas Van Dyke
Sr. Water Resource Agent
