

MEMORANDUM

Date: August 18, 2014

To: Water Right Files 95-12854, 95-13418, 95-16568 & 95-16621

From: Pam Skaggs 

Re: GCDB Changed

There has been a change to the Geographic Coordinate Data Base (GCDB) representing the Public Land Survey (PLS) used to define locations of water rights. The change split original Government Lot 2 into now Government Lots 2 & 3. The rights listed below have either the point of diversion or place of use described as Government Lot 2, which is now identified in the GCDB as Government Lot 3.

Three of these rights are Permit status and the legal description can be updated at the time of licensing.

Right 95-16568 has already been licensed and will not be updated until some further administrative action occurs. The right holder is not required to file a transfer to correct the right to reflect a change in the GCDB, but may choose to correct the record by transfer.

I am adding this memo to all four files for future reference and adding a comment to each right in the water right database to explain and acknowledge the discrepancy of the legal descriptions for any future actions.
