Subject: Error in Proff Report 63-161X

Shelley,

I found what looks like an error in the proof report for right 63-161X. The proof report incorrectly says this right gets cut to 100%, 75%, and 60% in times of scarcity (Stewart Decree). However this is one of the "uncuttable" rights and should not have condition 155. The partial decree does not contain the 100%, 75%, and 60% language yet it made it on the proof report.
