**RE: APPLICATION TO LEASE WATER RIGHT NO(S). 34-282B AND 34-856H
TO THE WATER SUPPLY BANK**

Dear Applicant:

The Department of Water Resources ("Department") has completed its review of your applications to lease and rent water rights to the Water Supply Bank ("Bank"). Based on that review, the Department cannot accept water rights 34-282B and 34-856H into the Bank.

This letter is notice that the attached applications to lease water to the bank and rent water from the bank are **returned**. The Water Supply Bank Rules provide criteria to be considered when determining whether to accept a water right into the Bank. One of the criteria for consideration is to have written consent from an irrigation district or water delivery company. Since this requirement has not been met, these applications are being returned to you.

If you wish to lease and rent water in the future, please reapply using new forms on the Department's website at www.idwr.idaho.gov. If you reapply within 30 days of this letter, the application fees paid for the lease will be waived.

If you have any questions, please contact me at (208) 287-4944.

Sincerely,

Cherie Palmer

Thanks. I finally learned that the Irrigation District has some concerns & that is why they have not sent an approval. I wish they had told me this long ago....

I have reviewed information on deliveries for rights 34-282B and 34-856H and the district has made deliveries into the Lower Burnett heading for the property associated with these rights. It may not of been deliverable to the Crawford property because other users in the ditch have stopped using or changed their point of the diversion. The change of diversion is on the Big Lost River Bank and Called the Crawford Diversion.

Hello, My apologizes for troubling with two emails. I am trying to determine if the Crawfords have irrigated with water rights 34-856H and 34-282B. These rights were decreed in 2002 and I'm having difficulty finding evidence of use over the past 5 years. If you have any information that might show use it would help with this lease rental.

Hello, I am processing your lease rental package. According to the information on the applications you want to move water rights 34-282B and 34-856H to the place of use for 34-49D because the leased rights have earlier priority dates. Our records show that Faye Forrey is the owner of the land at the place of use for 34-49D. The application indicates that you own the land at both the lease and rental place of use. Did you recently purchase the land next to the Big Lost River?

Sandra -

Crawfords purchased the place of use of 34-49D a couple of years ago.
Do we need to provide a deed, or get a plat description from Butte County?

Thanks,

RE: APPLICATION(S) TO RENT WATER FROM THE WATER SUPPLY BANK

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of your application(s) to rent water from the Water Supply Bank (Bank). The Department will review your application(s) as time allows. If your application cannot be processed for the initial year specified on the application, it is possible that it may be approved for subsequent years.

Filing a rental application does not authorize diversion and use of water. It is unlawful to use water without a valid water right or an approved Water Supply Bank rental agreement. **You are not authorized to divert any water for the purposes described in your application until you have paid the rental fee and you and the Department have both signed and executed a rental agreement.**

You can check the status of your rental application by reviewing the Department's processing spreadsheet, accessible from the Water Supply Bank's website at:
