Re: Change in Water Right Ownership: Water Right No.63-7381, 63-3310 and 63-3289 (Split into 63-3289 and 63-33982), 63-3309 (Split into 63-3309 and 63-33983), 63-32544 (Split into 63-32544 and 63-33984)

Dear Water Right Holder(s):

The Department acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records based on the information received to reflect the change in ownership and has enclosed a computer-generated report for your records.

Your portion of these water rights has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form or you can find the forms at www.idwr.idaho.gov. If you do not plan on changing any items on your water right, then no further action is required at this time.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please feel free to contact me at 208-287-4942 if you have any questions concerning the enclosed information or this letter.

Sincerely,

A handwritten signature in black ink that reads "Jean Hersley". The signature is written in a cursive, flowing style.

Re: Change in Water Right Ownership: Water Right No. 63-3289 (Split into 63-3289 and 63-33982), 63-3309 (Split into 63-3309 and 63-33983), 63-32544 (Split into 63-32544 and 63-33984)

Dear Water Right Holder(s):

We have received and processed a Change of Ownership for a portion of your original Water Right as referenced above. This change of ownership resulted in a split of your original water right.

When a portion of the original water right has been conveyed to another and the original right has been split, then the original water right number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new water right number reflects your remaining portion of the original water right, after the change of ownership. Enclosed is a copy of this new water right for your records. Please refer to your new water right number when corresponding with our office.

Water Right 63-32544 may have been claimed, recommended and decreed incorrectly in the Snake River Basin Adjudication process. I have enclosed a map and the water right proof report for you benefit. Water right 63-32544 is an enlargement right of 63-3289 and 63-3309 so the place of use on each water right should be the same. The QQ in Section 20, Township 01N, Range 02W is not the same. A transfer may be needed to correct this error. Please review the information and if you have any questions, please contact the Western Region Office at 208-334-2190.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

If you have any questions concerning this ownership change, or the enclosed information, please contact me at 208-287-4942.

Sincerely,

Jean Hersley
