Re: Application for Stockwater

Dear Applicants:

You filed a water right application for stockwater with the Idaho Department of Water Resources (IDWR) on 7/16/2014.

The application is incomplete and cannot be accepted in its present form, therefore, the application is being returned to you. Please note that a well that supplies water for household stock (up to 1,000 head) does not require a water right - it is an exempted use. That being the case, you can request in writing that the filing fee be refunded and no further action will need to be taken.

If you still desire to obtain a water right for your use, the application needs to be completed and a map attached. The best way to accomplish this is to make an appointment to come into the office and we can assist you. If it's not feasible for you to come to the office, we can send additional information to help you complete the application.

If we don't receive a request for an appointment OR your written request for a refund within thirty (30) days, we will assume you are no longer interested in the application and no refund will be made.

Please contact me at 208-334-2190 if you need more information about your returned application. Also, additional information regarding IDWR is available on the Internet at www.idwr.idaho.gov.

Sincerely,

Sharla Curtis
Sr. Water Resource Agent
