WATER RESOURCES
WESTERN REGION

Dear Michelle Edley,

I talked to you back in January, 2014 about trying to correct the water rights for the property to be sold at a trustee sale on April 30, 2014. We were successful in winning the bid for the property in question. Enclosed is the deed and survey of this parcel also known as tax lot # 44. This parcel has the first water right to the spring in question. The water right number is 82-7067 B. The point of diversion is in error on the aerial photo which you sent me. I have noted the actual point of diversion on the recorded survey in detail "A"

Enclosed is a form for change of water right ownership and a check for the fee.

Sincerely,

Cameron C. Lucas
