

MEMORANDUM

TO: Danielle

FROM: Daniel Nelson – Staff Hydrologist

DATE: July 23, 2014

SUBJECT: Irrigation Use for 75-14772

Sandy Thiel and I have both stayed at the bed and breakfast owned by David Tomlinson. The yard area that you have designated in your maps is all that has been irrigated. This has been confirmed by Ms. Thiel. Whereas Ms. Thiel and I can verify the irrigation use, there is no need to send further correspondence.

This property generally irrigates using one or two sprinklers at a rate of 5 to 10 gpm. Shelley Keen has told me that for irrigation rights for domestic type uses like yards, it is not reasonable to limit the water user to an amount lower than what can be diverted through a common household system. Therefore, please allow 0.02 cfs for the 0.2 acres of irrigation for this permit.
