Subject: RE: Does this provide us with Evidence of Participation in a Mitigation Plan?

I think it's evidence but agree its not necessarily real strong by itself. There are no water right numbers on it. I would have also been looking for some statement from the Ground Water District. However, in this case I can also confirm that the City of Dietrich is participating in mitigation via North Snake GWD, as the GWD has recently confirmed the membership to me with respect to water right nos. 37-22751 and 37-20729. I believe one of those rights is the permit in question but if not, please let me know.

Subject: Does this provide us with Evidence of Participation in a Mitigation Plan?

Hi Cindy,

I received a proof statement from the City of Dietrich.

Permit condition no. 7 reads:

"Prior to any diversion and use of water under this right, the right holder shall (1) provide evidence of participation in a mitigation plan, approved by the director, and administered by a ground water district or other recognized organization, or (2) provide individual mitigation approved by the director."

The attached pdf is what the permit holder provided us as evidence of this. I have typically seen a letter from the ground water district letting us know of the participation, but I have not seen something like this that I could've typed up myself. Have you seen this type of document used as evidence before? I'm not sure if this is acceptable evidence with their proof.

:) Darla
