RE: Notice of Security Interest in a Water Right 29-14103 & 29-11021

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence adding a security interest to the above referenced water right(s) to you. The department has modified its records to reflect the security interest and has enclosed a computer-generated report for your records.

Please note Mr. Tyson Schwartz contacted our department on August 4, 2014. The department has been holding the ownership for water right number 29-11021 for an agreement between the two property owners on how to split the water right. The department has not received the information, so Mr. Schwartz has asked us to complete the ownership change and he will file a new application for permit for stockwater use. Therefore you will receive a \$25.00 refund for that water right number. Once the application for permit is received you can refile the security interest for the new water right number.

Updating the security interest record for a water right does not reconfirm the validity of the right. When processing an security interest notice, the department does not review the history of water use to determine if the right has been deliberately abandoned or forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Jonie Barg
Technical Records Specialist
