CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **August 01, 2017**.
2. Subject to all prior water rights.
3. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
4. The domestic use authorized under this right shall not exceed 13,000 gallons per day.
5. Domestic use is for one home and shop and may include heating use.
6. Low temperature geothermal water diverted under this right shall not be used for irrigation purposes unless it is first used for heating purposes.
7. The irrigation occurring under this domestic use shall not exceed 1/2 acre.

Department of Water Resources
Permit to Appropriate Water

NO. 47-17614

8. This right does not grant any right-of-way or easement across the land of another. Specifically this right does not create or confirm any rights-of-way or other interest in the lands of others and does not authorize diversions from any well located on the lands of others including the well providing water to right 47-7841 located on the land currently owned by Busmann.
9. The diversion and use of water described in this right may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder.
10. The right holder shall install or construct a straight length of conduit for installation of a device for measuring the entire flow of water being diverted in connection with this right. The straight length of conduit shall be at least fifteen times the diameter of the conduit and shall be above ground or otherwise easily accessible. The right holder shall also install and maintain a pressure gauge on the well if the well is artesian or provide an access port on the well to measure water depth if the well is not artesian.
11. Upon specific notification by the Department, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point of diversion, in accordance with Department specifications.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 5th day of August, 20 14.
