Re: Water Right Application for Permit 37-22779

Dear Allen:

In response to our recent telephone call relative to the Carol and Robert Stevens draft permit; I am submitting an Application for Amendment of the permit 37-22779. The purpose of the amendment is to change the point of diversion, and remove a water right listed as part of Condition #3 on the draft; limiting the total diversion. The draft permit and map shows the point of diversion at an existing well in T5NR17E Sec 23 associated with water right 37-21428, and includes water right 37-21428 in Condition of approval #3. The well in section 23, is the point of diversion for water right 37-21428. Water right 37-2148 should not be included in the limitation of discharge Condition #3.

I understand from our conversation that this change in point of diversion and associated removal of water right 37-21428 from Condition #3 will not be advertised.

Thank you for your prompt attention to this matter.

Sincerely

Charles E. Brockway P.E PhD
