IDAHO DEPARTMENT OF WATER RESOURCES
Water Right 78-12419

8/5/2014

Conditions of Approval:

1. 01M After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
2. 103 When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
3. R64 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
4. X35 Rights 78-7363, 78-7356, 78-12419 and 78-12420 when combined shall not exceed a total annual maximum diversion volume of 60.0 af at the field headgate and the irrigation of 15 acres.
5. X15 A fish screen of 3/32 inch or smaller mesh shall be installed and maintained at the point of diversion.
