Subject: Ownership change 78-7356 and 78-7363

The Department of Water Resources received your request for a change of ownership for the above mentioned water rights. Water Right 78-7363 has a stockwater use along with the irrigation use. To determine how to split this use, the Department needs to know how many head of stock you will have.

Because the Department cannot process the ownership change without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days we will return your notice and all attachments and your notice will not be processed.

Thank you for your cooperation and patience. We have had many requests to process.

If you have any questions concerning the requested information, please feel free to contact me at (208) 287-4942.
