

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

Ident. No. 15-7380
RECEIVED
JUL 07 2014
Department of Water Resources
Eastern Region

1. Name of applicant(s) Gary K Lund, Julie M Lund Phone 208-766-4807
Name connector (check one): ☐ and ☐ or ☒ and/or
Mailing address 6276 S Old Hwy 191 City Malad City
State ID _____ Zip 83252 Email magictas@yahoo.com
2. Source of water supply ground water which is a tributary of _____
3. Location of point(s) of diversion:

TWP	RGE	SEC	Govt Lot	¼	¼	¼	County	Source	Local name or tag #
15S	36E	26	-		SW	NW	Oneida	Ground Water	D0065327

4. Water will be used for the following purposes:
Amount 0.28 for irrigation purposes from April 1 to Oct 31 (both dates inclusive)
(cfs or acre-feet per year)
Amount 0.01 for Domestic purposes from Jan. 1 to Dec. 31 (both dates inclusive)
(cfs or acre-feet per year)
Amount 0.01 for Stock watering purposes from Jan. 1 to Dec 31 (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
5. Total quantity to be appropriated is (a) 0.3 cubic feet per second (cfs) and/or (b) _____ acre feet per year (af).
6. Proposed diverting works:
- a. Describe type and size of devices used to divert water from the source. _____
- b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
- c. Proposed well diameter is 8 inches; proposed depth of well is 200 feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No
- e. If well is already drilled, when? June 2014; drilling firm Mountain West Drilling; well was drilled for (well owner) Gary K and Julie M Lund; Drilling Permit No. D0065327
7. Description of proposed uses (if irrigation only, go to item 8):
- a. Hydropower; show total feet of head and proposed capacity in kW. _____
- b. Stockwatering; list number and kind of livestock. cattle, from 4 to 10
- c. Municipal; complete and attach the [Municipal Water Right Application Checklist](#).
- d. Domestic; show number of households one
- e. Other; describe fully. _____

8. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
15S	36E	26							14										14
		26							S										
		26							D										

Total number of acres to be irrigated: 14

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

none

- Who owns the property at the point of diversion? Gary K Lund and Julie M Lund
- Who owns the land to be irrigated or place of use? Gary K Lund and Julie M Lund
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

Utilize the well on our property (D0065327) to irrigate 14 acres of rotational grazing pasture. Use the same well to provide the domestic needs of one household (including landscaping and gardening) and to provide water for up to 10 head of stock (cattle).

12. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Application For Permit No. 15-7380

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the IDAHO ENTERPRISE on August 7 and 14, 2014. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

A handwritten signature in blue ink that reads "Sharla Cox". The signature is fluid and cursive, with the first name "Sharla" and last name "Cox" clearly distinguishable.

RE: Application for Permit 15-7380

Dear Applicant:

The Department has received the above application for permit to appropriate 0.86 cfs of ground water in the Malad River drainage. For new appropriations, under Idaho Code § 42-203A(5) IDWR has the responsibility to ensure there is a sufficient supply of water and that the appropriation will not result in injury to existing water rights

Historically, when issuing permits for new appropriations, IDWR viewed ground water and surface water as two separate sources. Often the impacts of new ground water appropriations on existing surface water rights were not evaluated. However, Idaho water law now recognizes that in many places ground water and surface water are hydraulically interconnected, and proper administration of existing water rights and new appropriations requires conjunctive management of both sources.

In March 2009, the Department received a letter from the Oneida County Commissioners expressing their concern about the perceived decline in flows from springs and artesian wells in the area. Their letter questioned whether the Department should continue issuing new permits to appropriate ground water in the Malad River drainage. In response to the commissioners' request, the Department's Hydrology Section has been tasked to review available information and data on ground water and surface water supply in this drainage. The Hydrology Section's report will be helpful in developing water policy for the Malad River drainage.

Meanwhile, applicants who want IDWR to take final administrative action on their applications can provide IDWR with the information required under Water Appropriation Rule 40.05 regarding the availability of water for the proposed appropriation and the potential for the proposed appropriation to injure existing water rights. The additional information requirement is usually waived for applications proposing the appropriation of 5 cfs or less or the storage of 500 af or less. Because of the concerns regarding the impact to springs and artesian wells in the area, the department is requiring that applicants submit the additional information required by water appropriation rule 40.05, even when the application is for less than the 5 cfs / 500 af thresholds. Only certain

applications for small domestic and stock water uses and applications to divert ground water for domestic in multiple homes are exempt from the additional information requirement. A copy of the pertinent sections of Water Appropriation Rule 40.05 is included in this letter. If you believe that a particular section of Rule 40.05 is not relevant to your application, please explain why.

Ultimately, the applicant bears the burden for demonstrating that the water supply is sufficient for the proposed appropriation and that it will not cause injury to other water right holders.

Please submit the information within 30 days of this letter. If you have questions concerning this matter discussed above feel free to contact the Eastern Region Office.

Respectfully Submitted

James Cefalo
Water Resources Program Manager
