Ident. No. 63-33936

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public water of the State of Idaho

1. Name: AMBER ROLLINS
5693 OASIS RD
CALDWELL ID 83607
(208) 899-2915

DONALD ROLLINS
5693 OASIS RD
CALDWELL ID 83607
(208) 899-2915

2. Source: GROUND WATER

3. Location of Point of Diversion:

#1 GROUND WATER SE1/4NW1/4 Sec. 1, Twp 05N, Rge 04W, B.M.
PAYETTE County

4. Water will be used for the following purposes:

<u>Purpose</u>	<u>From</u>	<u>To</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	01/01	to 12/31	0.06 CFS	
DOMESTIC	01/01	to 12/31	0.04 CFS	

5. Total quantity to be appropriated is: 0.10 CFS

6. Proposed diverting works:

POINT OF DIVERSION #1

- a. Type and size of devices used to divert water from the source:
- b. Height of storage dam _____ feet;
Active reservoir capacity _____ acre-feet;
Total reservoir capacity _____ acre-feet;
- c. Proposed well diameter is _____ inches;
Proposed depth of well is _____ feet.
- d. Is ground water with a temperature of greater than 85F being sought?
- e. If well is already drilled, when? _____;
Drilling Firm _____;
Drilling Permit No. _____.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public water of the State of Idaho

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 1 year(s).

8.

PLACE OF USE: IRRIGATION

PAYETTE, ID 83661

RE: Application For Permit No's: 63-33936, 65-23583

Dear Legal Notice Department:

Please publish the enclosed legal notice on the dates indicated (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 8/25/2014. Your cooperation is appreciated.

Sincerely,

Rachel Sommer
Administrative Assistant

Enclosures

MEMORANDUM

To: File 63-33936

From: Sharla Curtis

Date: July 24, 2014

RE: Comment/Analysis

After my initial review of this application, everything looked to be in order. All I needed to complete my review so that I could route the file for advertising was a Water Bearing Zone. I tried every possible combination to search for a well log and found NONE. I spoke with Amber Rollins via phone and she told me that they did not know the depth of the well or any details about it except that it was deep. The neighbors who share the well with their own separate pump have lived there only a few months and therefore know even less about the details of the well.

I asked Mrs. Rollins to look at the well to see if she could find a drilling tag on it. She went out that evening and took a picture of the tag she found (copy attached). Sure enough, it had IDWR on it but nothing else to give me a clue about the drilling of the well. I spoke with Sonny Hornbaker and he thought the tag looked like something Hydrology would use for monitoring wells.

I then sent an email to Hydrology. Attached are all the back and forth emails with several people from that section. In the end, we know nothing more than we started with. The only way to get an exact depth is for the applicant to pull the pump and drop a tape (which they would have to get a pump dealer to do for them at their cost). I don't feel it is appropriate to ask the applicant to spend money for a service call to get one piece of information that in the scope of things probably won't matter to anybody anyway.

One further thing, without a well log and a way to track the drilling, we have no indication what the drilling permit fee was. I'm not going to pursue that issue either.

Subject: RE: Well Data

This location is on the margin of the Sand Hollow Creek valley, and appears to be between a couple of canals, so it is hard to guess how deep they drilled. The Brown (225 ft deep) and Blackburn (252 ft deep) logs might be the best references in this area, but it is also possible the well in question is shallower or deeper than these. If the owner doesn't have a log or records from the pump installation, the only way to know would likely be to pull the pump and measure the depth.

Subject: FW: Well Data

The well is in the Sand Hollow area – almost a mile west of the interstate and ¼ mile south of Oasis Rd. I'm finding pretty much nothing for monitoring sites or well construction at the home I believe this is all about. There are some driller reports within ½ mile or so. Based on what you know about the TV model in that area, are there any generalizations that might help Sharla?

Subject: FW: Well Data

Lin,

The legal description for the well is T5N, R4W, Sec. 1, SENW.

Sharla, do you want to send Lin the legal location of this well, so he can see if it is one that our group measures?

Subject: RE: Well Data

It would really help to know the legal description for the well. It could be that one of us knows the well, but we don't have all the gps tags memorized.

Sharla, this tag number is not listed in the Spatial Data layer. I asked Nick if water distribution had any records associated with the tag number and his response is below.

Subject: RE: Well Data

Hi Jennifer,

It looks like Scott King issued that tag to Burke Scholer on 3/20/1998. That is all I have on that tag. I have no idea where or when it was placed.

Hope that helps.

Nick.

Hi Nick – would you have any idea who placed GPS tag number A0008178? I did not find this tag number in the Spatial Data layer.

To: Hydrology
Subject: Well Data

The attached photo was sent to me from a water right applicant. We need to know the water bearing zone for advertising. Unable to locate a well log; applicant hasn't owned property that long. So she took this picture and I'm hoping you can at least tell me the depth of the well.
