Subject: Request for Extension of Time Received for Permit 95-10203

June 19, 2014

Dear Mr. Kastning:

The Department is in receipt of your request for extension of time to submit proof of beneficial use for the above mentioned water right permit. I noticed that you have asked for 2 more years on this extension request.

According to Section 42-204, Idaho Code, you are allowed an initial development period of 5 years and only one extension request after that for up to 5 more years. You've already had the initial 5 year development period allowed under the permit.

This extension is considered to be your last extension request allowed under due diligence. You could ask for up to 5 years on this extension request instead of the 2 years you requested.

However, in order for me to modify your request for extension of time form from a 2 year extension request to a 5 year extension request, I need written request from you stating that you would like to have your extension request form modified to reflect a 5 year extension in lieu of the 2 years currently stated on the form.

A reply to this email could be used as your written request to modify your form. Please respond as soon as possible, and be as specific as you can in your request.

Sincerely,

Darla Block

*As of July 9th, 2014, no response
received to my email. I phoned & spoke
with Timothy Kastning July 9th, 2014, and
he said that the (2) yrs. requested should
be sufficient.
