NOTICE OF PROTEST OF TRANSFER # 79384, 79380, AND
79357

PROTESTANT: MARTIN HACKARD
TRANSFER OF WATER RIGHTS FROM THOMAS LENO TO
CEDAR RIDGE DAIRY AND HENRY C HAFLINGER JR

I have lived at 3289 N. 2300 E. (Salmon tract area) for 14 years and have seen water levels drop since the industrial dairies were built in this area.

Our quality of life would be greatly compromised to the point that we would not have enough water to sustain basic life. Our property values would plunder to depths where no one would buy our home. The water tables have already been damaged by the industrial dairies using way too much water.

Well problems have occurred at my expense as well as other neighbors in the area due to the lack of water causing the well collapse due to the massive consummation of underground water by the industrial dairies in our area.

The industrial dairies have no concern for our well-being to maintain a healthy life-style due to the over abundance of flies and odors.

Now if these transfers go through, we will not be able to live in our homes without good quality water.

I do support the agricultural business in the area, but I do not support a ruthless industry such as these dairies in our area that are not good stewards of the land!

I have fought these industrial dairies in the past with no means of satisfaction from them. Just a lot of red tape and mental and physical stress on myself and my family.

1) PLEASE, PLEASE DO NOT LET THE TRANSFERS GO THROUGH!

2) Put a moratorium on the dairies consummation of underground water by not drilling new wells or upgrading existing wells for more output.

3) Fixing our wells to our satisfaction will be only a temporary fix because of the massive abundance of underground water being used by these industrial dairies.

The home owner's wells will suffer immensely.

4) Recommend that the industrial dairies locate to another location to improve our quality of life in the Salmon Tract area.

5) If no compromise can be made, I believe that the dairies should buy us out and give us a fair market value for our property which consists of a home, barn and 5 acres of land.

6) In the future, Idaho Water Resources should closely monitor the industrial dairies consummation of underground water.

7) Please use common sense when thinking out these water right transfers in the Salmon Tract area now and in the future.
