RE: Preliminary Order to Deny Petition for Reconsideration

5/1/14 Karen Bruner, telephone

Ms. Bruner called regarding the Order Denying the Petition for Reconsideration. She was quite upset arguing that she had the irrigation system in place. She argued that she was told she could not use the water until the licence was issued. I told her the permit that was issued in 1998 authorized her to develop beneficial use. The water must be beneficially used for licensing. The pasture lands omitted had never been irrigated. She had 2 options: file a new water application or petition the order to deny.
