RE: Water Right Permit No. 21-7557

Dear Permit Holder:

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department validates the extent of development that has been established in compliance with the terms of the permit.

On June 5, 2014 I was on location verifying your water use and found that the place of use and the point of diversion listed on the application for permit were different. Copies of the permit, a map, and the beneficial use report have been included for your reference. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee. If you do not agree with the findings of the exam please give me a call at the number above to discuss the issue.

If you have any questions, please let me know.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Kerrie'.
