Dan, I'd written down your email address incorrectly a couple of weeks ago when we spoke , but attached is a picture of my well showing the new Badger Meter and two lockable shut off valves. One valve goes to my lawn irrigation and the other to the 3 inch hand line irrigation I have in my pasture. If you would pass this on to Darla for me I'd really appreciate it and thanks to you and all the people I have come in contact with there at the department of Water Resources over the last few years of getting all this straightened out.

Bill Ratliffe
